

**Swanson Correctional Center for Youth  
Madison Parish Unit, at Tallulah**  
(Sections 2 and 7 of the bill, R.S. 15:902.2)

New law provides for the closure of Swanson Correctional Center for Youth-Madison Parish Unit, (SCCY-MPU) as a facility for juveniles. More specifically, new law requires, by December 31, 2004, that SCCY-MPU no longer be used as a juvenile facility. However, new law allows a five-month extension, not to extend beyond May 31, 2005, if the governor declares a state of emergency which necessitates the use of SCCY-MPU. New law requires DPS&C to develop a comprehensive plan for the transitioning of juveniles out of SCCY-MPU based upon the health, safety, and best interests of each child and the protection and public safety of society. The comprehensive plan must include a plan for aftercare services, a specific date after which youths will no longer be assigned or reassigned to SCCY-MPU, and must be submitted to the governor and legislature before August 1, 2003. New law additionally requires that the plan be updated every month detailing the total number of youths in SCCY-MPU, the number of youths transitioned out of SCCY-MPU and the facility to which the child was transferred, and the number of youths, if any, placed in SCCY-MPU, and the reason for this placement as opposed to placement in another juvenile facility.

New law, in Section 7 of the bill, specifically provides that as long as the state is obligated for debt service on SCCY-MPU, it must provide alternative uses for the facility as a correctional facility. Additionally, new law provides that 40% of the savings, up to \$3,000,000, attributed to the reduction of services and employees at SCCY-MPU due to the transitioning of adjudicated juveniles pursuant to this Act, is to be used for alternative programs for juveniles being served in the parishes of East Carroll, West Carroll, Madison, Richland, and Tensas and for a community-based system of care for juveniles residing in those parishes in order to offset the loss of services and jobs which would have otherwise been required to provide juvenile services at SCCY-MPU. The balance of the savings are to be used to increase the availability of a community-based system of care for adjudicated juveniles in all other parishes. Requires that this funding formula be included in the annual executive budget.

**Placement Review Process**  
(Section 2 of the bill, R.S. 15:902.3)

New law creates a placement review process in order to facilitate the transition of SCCY-MPU to alternate adult offender utilization. New law requires the placement review to be conducted by DPS&C through a multi-disciplinary review panel designated by the secretary, including an assessment of the needs and progress of the individual juvenile, the risk of danger to society, and the community resources needed to serve the best interest of the child and society and a recommendation for placement and services. New law requires the secretary to establish and promulgate rules, regulations, and procedures to govern the placement review process, including provisions for the department to notify appropriate law enforcement communities and any registered crime victim. New law provides that if the assessment results in a determination that the juvenile be transferred to a less restrictive setting, the department must develop recommendations for placement, care, and treatment in accordance with the assessment. New law further provides that if the recommendation includes placement in a less restrictive setting, the department must file a motion with the court and serve a copy of the motion on the district attorney. New law provides that the recommendations will be implemented unless the court, within fourteen days of receipt of the motion does any one of the

following: (1) rejects the recommendations and denies the motion; (2) notifies the department in writing that there is no objection and the recommendations have been accepted as orders of the court; or (3) schedules a hearing and issues an order rejecting or modifying the recommendations of the department. New law provides that juveniles adjudicated delinquent and given a disposition under the provisions of Children's Code Article 897.1 (mandatory sentencing provision) are not to be eligible for consideration under this placement review process.

### **Standards and Licensing for Juvenile Facilities**

(Section 2 of the bill, R.S. 15:1110)

New law requires a single state entity (a new state entity consolidating various services to children, youth, and families, as more fully digested under heading "Single State Entity for Children") to develop uniform standards and licensing procedures for local juvenile detention facilities. The uniform standards and licensing procedures are required to address operations of the local juvenile detention facilities, programs and services offered at the facilities, training of staff, the rights of children in a facility, educational and substance abuse needs of the children, population limits of the facilities, and such other standards that will ensure a safe, secure, and humane environment for children within the facilities.

### **Interagency Agreements for Data Sharing**

(Section 2 of the bill, R.S. 15:1461-1464)

New law relative to the sharing and integration of appropriate data and information relating to child protection, delinquency, families in need of services, and other concerns, requires the single state entity to develop a comprehensive strategy to foster interagency agreements and cooperation regarding the sharing of information and data concerning juvenile offenders. New law authorizes agencies to execute specific agreements defining the data to be shared between the parties, the person or persons allowed to have access to the data, and the security arrangements necessary to ensure the protection of the data from unauthorized access. New law recognizes DSS, DHH, DOE, DPS&C, DOL, courts, district attorneys, law enforcement agencies, schools and others as agencies involved in facilitating agreements regarding the sharing of information regarding juveniles. New law requires interagency information sharing agreements to specify the conditions under which information is to be made available to authorized parties and to include procedures for respecting the confidentiality of all records and information pertaining to a juvenile. New law provides that any person or agency, who in good faith, and pursuant to any interagency agreement, discloses confidential information regarding any juvenile, shall have immunity from any liability, civil, criminal, or otherwise, that might result by reason of the type of information disclosed. However, this limitation on liability does not apply if a party acts with gross negligence or in bad faith.
