SCORING INFORMATION: GRADE 6

The table below summarizes the scoring of the 2016 ELA Tasks at grade 6.

Scoring of Tasks on the 2016 ELA Tests: Grade 6					
Task	Dimensions	Points by Dimension	Total Points	Change from 2015 Scoring Rubrics	Rubrics
Research Simulation	Reading/Written Expression*	16 points (4 times holistic score)	19	Reading and Written Expression combined into one dimension (same total score points as 2015)	2016 Grade 6 Scoring Rubrics
	Conventions	3 points			
Literary Analysis	Reading/Written Expression*	16 points (4 times holistic score)	19	Reading and Written Expression combined into one dimension (same total score points as 2015)	
	Conventions	3 points			
Narrative Writing	Written Expression	12 points (3 times holistic score)	15	No change	
	Conventions	3 points			

*When scoring the Reading/Written Expression dimension, the holistic score (4, 3, 2, 1, 0) is determined, based on which score point best describes that response. That holistic score is multiplied by 4. This means that if a student receives a 2 for Reading/Written Expression, the student will receive a score of 8 for this dimension. This score is then added to the Conventions score to provide the total score for the RST or the LAT.

NOTE:

- The reading dimension is not scored for elicited narrative stories.
- The elements of coherence, clarity, and cohesion to be assessed are expressed in the grade-level standards 1-4 for writing.
- Tone is not assessed in grade 6.
- Per the CCSS, narrative elements in grades 3-5 may include: establishing a situation, organizing a logical event sequence, describing scenes, objects or people, developing characters' personalities, and using dialogue as appropriate. In grades 6-8, narrative elements may include, in addition to the grades 3-5 elements, establishing a context, situating events in a time and place, developing a point of view, developing characters' motives. In grades 9-11, narrative elements may include, in addition to the grades 3-8 elements, outlining step-by-step procedures, creating one or more points of view, and constructing event models of what happened. The elements to be assessed are expressed in grade-level standards 3 for writing.

A response is considered unscorable if it cannot be assigned a score based on the rubric criteria. For unscorable student responses, one of the following condition codes will be applied.

Coded Responses:

- A=No response
- B=Response is unintelligible or undecipherable
- C=Response is not written in English
- D=Off-topic
- E=Refusal to respond
- F=Don't understand/know

Read the paragraph from the passage. Select the phrase in the paragraph that **most** helps the reader understand the meaning of the word "exploits."

Stories have it that Milo loved to show off. One of his tricks was standing on an iron disk covered in grease and daring others to push him off. Another one of Milo's exploits was to hold a pomegranate in his hand while others tried to take it from him. No one could. Despite his great strength, he managed to hold the pomegranate gently enough to avoid crushing it. Milo also enjoyed entertaining others by tying a cord around his forehead and, by holding his breath, breaking the cord with his bulging veins.
