## Access Career Development Institute

[www.acdicollege.org](http://www.acdicollege.org)

Access Career Development Institute (ACDI) offers face-to-face instruction at the partnering school's site or in our own classroom facility. We offer courses that equip our students with the knowledge necessary regardless of their chosen pathway. Students learn valuable skills and earn highly sought after credentials. All courses are taught by highly qualified faculty who are active scholars in their fields. All courses are designed to polish students' critical thinking skills and provide the needed boost to afford them success at the college level. At ACDI our goal is to prepare our students to compete successfully in a post-secondary learning environment and the workforce.

## ACT Up!

ACT Up Test Prep is an ACT® Test Prep course that focuses on providing detailed instruction in English, math, reading, and science from expert teachers. Students will not have one teacher instructing the four subject tests on the ACT®, but multiple teachers who have been trained in the subjects. No "one-size-fits-all" for instructors or students. They get the best from the best.

## Cambridge Educational Services

[www.CambridgeEd.com](http://www.CambridgeEd.com)

For over 28 years, Cambridge has served 5,000,000 students through nationwide campus-based partnerships including schools in Louisiana. Our face-to-face and online programs which include ACT, PSAT, WorkKeys, and HiSet test preparation; Education to Careers, College Prep and College Success; and Non-Negotiable Skills for College and Career Readiness programs, provide over 150 hours of study. Computer-generated lesson plans pinpoint the most efficient instructional strategies and appropriate level curriculum for large score increases and college scholarships. Cambridge online programs blend web-based curriculum with an in-class teacher.

All courses include pre- and post-tests to ensure an authentic testing experience and accurate baseline scores. Recent score increases include an average of 4.5 ACT points including a perfect 36!

Cambridge pays your instructors more than double the industry average so that you have the most qualified, certified professionals delivering college and career preparation including core skills, test mechanics, powerful test-taking strategies, timed practice quizzes, and full-length practice exams with detailed explanations.

Materials are developed by the world's most prolific test preparation author, Tom Martinson, a Harvard law grad who has written more national courses and individual titles than anyone in the world. The Research, Evaluation and Accountability division ranked Cambridge #1 overall for highest math, highest reading, highest attendance and lowest dropout rate. Call 800-444-4373 or email [LACourseChoice@CambridgeEd.com](mailto:LACourseChoice@CambridgeEd.com)

## Career Campus

[www.villagevirtual.com](http://www.villagevirtual.com)

Career Campus powered by Village Virtual connects students to effective and engaging online learning opportunities in core, elective, foreign language and CTE content. With more than eleven years of experience in online learning, the strength of the Career Campus model can best be seen in its robust support for students and schools. Certified teachers contact students and parents by phone within the first week of enrollment and continue to provide just-in-time feedback by phone, texting, email, or virtual meetings throughout the course. Stakeholders receive weekly progress reports with individualized teacher feedback included on the first and fifteenth of every month. Student Support Specialists are available immediately during office hours to address technical issues and any other parent, student or school concern. Career Campus robustly supports JumpStart pathways in the Micro-Enterprise, Medical, Hospitality, Public Service, and Information Technology career paths. We are big enough to support scalability and growth in your online learning program . . . small enough to care about each client and each learner.

## Educational Bedrock, Inc.

We are in the “repair” business! We do skills repair work by offering ACT® prep, Mathematics Remediation, and Algebra I. Educational Bedrock, Inc. has highly trained, knowledgeable, and skilled educators ready to dedicate their time and talents to students. We are ready to provide the students with the best teachers to ensure that each student makes the greatest academic gains. Our teachers have helped students prepare for college entrance tests such as ACT®. Our program exceeds state and national scores by producing an average ACT® composite score of 23.

## Florida Virtual School

[www.flvs.net](http://www.flvs.net)

FLVS Global School, fully accredited under the FLVS umbrella, serves students in all 50 states and over 65 countries. Online courses for 6th – 12th grade are available 24/7 and taught by certified teachers. FLVS Global School is a community in which students work across geographical, cultural, and socio-economic boundaries to realize their potential. All FLVS Global School teachers are highly qualified and certified within the subjects they teach, and students communicate with teachers via email, video chat, text, instant message, and telephone.

Key characteristics:

- PRESCRIPTIVE - Uses prior knowledge to drive instruction
- RELEVANT - Real-world connections abound
- COMPLIANT - 504, 508 and WCAG accommodations
- FLEXIBLE - Offers individualized pace planners
- INTERACTIVE - Concepts are taught in a variety of engaging ways
- CHOICE-DRIVEN - Provides various options to demonstrate learning
- CHUNKED - Related pieces of content are easily identifiable
- RICH IN STUDENT-TEACHER COMMUNICATION - Allows for more precise personalization

## Louisiana School for Math, Science, and the Arts

[www.online.lsmsa.edu](http://www.online.lsmsa.edu)

LSMSA Virtual School is part of the Louisiana School for Math, Science, and the Arts – or LSMSA. Our courses were formerly offered through the Louisiana Virtual School which joined LSMSA in 2014 as a result of state-wide reorganization. We offer opportunities for students to earn high school credit for core and AP® courses through an online learning platform which students may access 24 hours a day, 7 days a week. Our courses are BESE accredited and taught by LSMSA instructors certified in their subject areas with years of online teaching experience. Courses provide a variety of activities and assessments with a weekly schedule for coursework completion designed to ensure the student completes all required coursework by the end of the course term, whether the course is semester-long or full year.

## MasteryPrep

[masteryprep.com](http://masteryprep.com)

MasteryPrep, formerly ACT Mastery, is the #1 ACT® preparation program for Louisiana students. Developed by Louisiana native Craig Gehring, the expert who made perfect scores on both the ACT® and the SAT®, ACT Mastery is the proven ACT® prep program trusted by Louisiana teachers, principals, and parents alike. The ACT Mastery program can help your child become eligible for TOPS and other important college scholarships, and is four times more effective than the national test prep average. ACT Mastery offers prep for the ACT® as well as WorkKeys.

## My Virtual Academy

[www.myvirtualacademy.com](http://www.myvirtualacademy.com)

Take part in the My Virtual Academy Advantage! Our instructors have extensive online teaching experience and pride themselves on helping each student they teach succeed. My Virtual Academy teachers contact each student multiple times every week to ensure that students are engaged and mastering key skills. Our frequent contact with the student each week ensures that MVA can easily determine where the student is struggling, so we can turn student mistakes into learning and accomplishment. MVA employs Edmentum as our software program. The program identifies the strengths of every student. We also include supplemental activities to allow our students to apply the concepts they are learning in an individualized way.

## New Orleans Technical Education

Our vision is to provide high quality technical education courses to develop hard-working students into college and career ready graduates. In our courses, we aim to provide exposure to the craft industry while dually developing interested students into skilled craftsmen and future industry leaders. Programs of study are based on industry need and courses are designed so that students can earn industry credentials over the course of one calendar year.

## NOVAC

[www.novacvideo.org/borndigital](http://www.novacvideo.org/borndigital)

NOVAC is a media arts nonprofit in New Orleans and Baton Rouge. Our BORN DIGITAL youth programs in both cities offer young people the opportunity to explore careers in arts and technology. Our students do hands-on projects, study careers in creative digital media, and complete Adobe certified curriculum preparing them for the Adobe Certified Associate exam. Currently NOVAC provides classes in the Greater New Orleans area, partnered with specific schools.

## Operation Spark

[operationspark.org](http://operationspark.org)

Operation Spark is a non-profit code school on a mission to help people get great jobs by teaching them how to write software. Software powers everything from Facebook to the phone in your pocket to commercial airplanes and it's never been easier to learn how to do it yourself. Operation Spark students gain valuable skills needed to help them prepare for well-paying careers in the tech industry. Our course is a deep dive into the fundamentals of programming in JavaScript which is the most in-demand software language today. It takes a student with no experience from "I don't know what coding is" to "I know the basics and feel like I have a future in the field." Louisiana currently has thousands of open positions in the software industry and the need is only growing in years to come.

## Pelican Virtual School

[pelicanvirtualschool.net](http://pelicanvirtualschool.net)

Pelican Virtual School is housed in Denham Springs LA. What separates us from other providers is that we specialize in teaching Spanish I and Spanish II, and that our teachers do not hide behind the screens. In fact they visit our students at their home schools periodically. With more than a decade of experience teaching Spanish, both online and in conventional classroom settings, our team of native Spanish speakers has developed effective and engaging online methodologies for acquiring Spanish language proficiency. An important aspect of our Spanish courses is that they have been custom designed by Louisiana teachers for Louisiana students. A wide variety of multimedia activities, including games, audio and video components, are integrated throughout our courses to reinforce the four basic language skills: listening, reading, writing and speaking. Since we are based in Denham Springs, a member of our team will be available to visit your school when necessary, addressing any academic or technical matters in an effective and timely fashion.

Provider	Type	Course Title	Carnegie Unit	Course Price

## Pinnacle Learning Solutions

[www.pinnlearn.com](http://www.pinnlearn.com)

Pinnacle Learning Solutions offers students the opportunity to learn virtually from award-winning Louisiana teachers. We are a small company that is founded, owned, and operated by a husband and wife team that loves what we do—educating students. Our goal is to make learning a positive experience for every student and provide ample opportunities for struggling students to get extra help along the way. We offer a narrow selection of courses that allow us to give specialized attention and innovative learning opportunities to motivate our students. We use relationships to push students to reach their personal best. Our level of communication and service are second to none! At Pinnacle Learning, we put students first! College and Career Readiness Skills are embedded in each unit and courses are available 24 hours a day, 7 days a week. Therefore, courses can be taken during the regular school day, or in addition to it. Students are able to work at their own pace.

## Proximity Learning

[www.proxlearn.com](http://www.proxlearn.com)

Proximity Learning is a fully-accredited (NCAA, AdvancED) online course provider. Proximity Learning offers a variety of engaging online courses ranging from Mandarin Chinese to AP U.S. Government to Reading and Math Intervention. Thousands of students across the U.S. earn transferable high school credits with Proximity learning every year. All Proximity Learning courses are taught by highly qualified certified American teachers who inspire and mentor the students they teach. If you have a class size of 15+ students, we can set up an online live class session for your students to meet with our teacher “live” in an online classroom. If you have enrollments of less than 15 students, our teacher will still work with your student virtually through our learning management system. There will just not be a scheduled meeting time for them to meet online. With a 93% student pass rate and a 90% student satisfaction rating we invite you to find out for yourself how we reinvented online learning.

## SmartStart Virtual Academy

[www.smartstarteducation.com](http://www.smartstarteducation.com)

SmartStart Education is an academic solutions company led by experienced educators who provide proven results-focused preK-12 instructional solutions. SmartStart Education has been providing high-quality educational services for ten years, delivering learning programs that improve academic achievement, enhance self-esteem, raise test scores, and promote excellence in teaching and learning. SmartStart has served over 25,000 students attending hundreds of schools because we deliver an exceptional education that is essential for college admissions and securing high-wage jobs. Outstanding, differentiated instruction is provided using state-of-the-art technology. Students can complete our coursework anywhere and anytime. We specialize in partnering with schools to facilitate students' progress in their online courses. Our student monitoring system ensures that no one falls through the cracks. Student progress is tracked daily and progress is reported to school counselors and administrators weekly.

## South Arkansas Community College

[www.southark.edu](http://www.southark.edu)

South Arkansas Community College (SouthArk) is an open enrollment public two-year college located in El Dorado, Arkansas and accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools (HLC-NCA). SouthArk offers 19 associate degrees and more than 40 certificates in health sciences, career technical education, liberal arts, and business and technology. For students who are planning to transfer to a four-year college, SouthArk offers the Associate of Arts (AA), Associate of Science (AS), the ASE (Associate of Science in Education) and several Associate of Applied Science (AAS) degrees in many discipline areas. SouthArk's west campus is home to programs for general education, business and technology, and health care. SouthArk's east campus offers career technical programs for high school and post-secondary students.

## St. James Parish Schools

[www.stjames.k12.la.us/academic\\_programs/virtual\\_academy](http://www.stjames.k12.la.us/academic_programs/virtual_academy)

Inspiring hope and purpose is the vision of St. James Parish Schools. Children succeed when they are inspired by a purpose that engages their inner strength to overcome obstacles and reach their full potential. Through the Supplemental Course Academy, we will share its vision of hope and purpose with students throughout the state of Louisiana. We are offering comprehensive programs in two areas of concentration: The Career and Technical Center (CTC) and the Virtual Academy. The CTC offers programs in cosmetology, industrial maintenance, allied health, ProStart®, and agri-science/construction technology. Students can earn industry-based certifications (IBCs) that employers look for when they hire. Our CTC courses also offer dual enrollment opportunities that help students complete post-secondary degrees. The Virtual Academy offers students throughout Louisiana an on-line learning environment that is customized, connected, and complete. St. James Parish is an innovator that delivers quality education programs. St. James Parish offers programs –developed in conjunction with educators, business leaders, parents, students, and community members – that empower students to reach their full potential.

**The 1881 Institute of Technology**

<https://www.the1881institute.org/>

The 1881 Institute of Technology (1881) - named after the year the Tuskegee Institute was founded - prepares underrepresented populations to successfully enter engineering fields by equipping them with college-sophomore level mastery in engineering, math, and applied sciences before graduating high school. Approximately 350,000 factory jobs are unfilled because factories can't find properly trained American workers with the electrical and mechanical skills needed to maintain complex machinery. Therefore, 1881's curriculum was carefully created with the help of engineers and industry partners to equip students to become meaningful contributors to a company as an engineering apprentice after turning 16.

## The Power Courses

[www.thepowercourses.com](http://www.thepowercourses.com)

The Power Courses - the Best ACT® and SAT® Score Improvement Program in Louisiana. The Power ACT Course and The Power SAT Course have helped thousands of Louisiana high school students significantly increase their test scores, leading to greater college admissions and scholarship opportunities. Our Power ACT Course programs have helped hundreds of students earn TOPS scholarships and have helped area high schools improve their SPS scores. Our Power SAT/PSAT programs have helped more students become National Merit Semifinalists in the state than any other program. We work on both the strategies and the substance of each section of the test, using a specifically designed curriculum for a semester long program at Louisiana high schools. We provide constant skill and score tracking to students, teachers, and school administrators.

## Youth Challenge Program (YCP)

The Youth Challenge Program is a multi-phased alternative education program, targeting high school students between the ages of 16 and 18. The highly structured 5 ½ month Residential Phase (cycle) focuses on continuing education through Course Choice, Credit Recovery, HiSET (GED) and Career Readiness. The Course Choice and Credit Recovery track allows high school students to dual-enroll into the Program to recover and/or earn high school credits (Carnegie Units) providing students an opportunity to "catch-up" and graduate with their high school cohort. The HiSET (GED) track provides students an opportunity to earn a high school equivalency diploma that may have fallen too far behind in high school. The program's eight core components are: Academic Excellence, Physical Fitness, Job Skills, Service to Community, Health and Hygiene, Responsible Citizenship, Leadership/Followership, and Life Coping Skills. The Residential Phase is followed by a 12 month Post-Residential

mentoring phase. During this phase, mentors and program Case Managers provide support to the students as they work toward their goals of continued education, employment, or entering the military.

## Youth Education Services (YES!)

[www.youthedservices.org](http://www.youthedservices.org)

At Youth Educational Services (YES!) Inc., our vision is to help students achieve academic success and gain confidence in their abilities through the delivery of high-quality content. We believe that all students can and will learn when they are provided with individualized instruction tailored to their needs. YES! Inc. has partnered with Pearson to offer courses virtually through a premier alternative education model –GradPoint. Our award-winning, online learning platform delivers engaging, rigorous, standards-based curricula and assessments. The engaging courses capitalize on students’ love of technology with multimedia instruction that includes audio, video, animations and interaction. Students will also have access to certified teachers who are available to provide individualized attention or intervention. By enrolling in courses with YES! Inc., students are granted the flexibility to complete their coursework anytime and anyplace on any internet-ready device. Begin your journey to academic success with YES!

## Youth Empowerment Project (YEP)

YEP provides young people ages 16 – 21, with academic and workforce readiness programming to help them pursue educational and employment opportunities. YEP offers comprehensive, individualized academic instruction and support services geared toward successful completion of the HiSET. YEP also provides additional support outside of the classroom, including intensive mentoring and supportive services that enable students to become successful in the workplace. Instructional content areas include reading, language, writing, math, science and social studies.

YEP’s career readiness services are offered to students in two phases. The first phase of the programming teaches youth both soft and hard skills in order to make them more employable. The soft skills curriculum includes basic job readiness and life skills including time management, goal setting, teamwork, interviewing, etc. YEP offers three hard skill tracts: customer service, bicycle repair, and creative digital media. After completion of phase one, students may continue to a second phase in which they are placed in internship/externship experiences. In these experiences, they spend time applying the skills gained in phase one and gain valuable work experience.
