

LearnZillion INC
LearnZillion Guidebooks (Grades 6-8)

MEMORANDUM OF UNDERSTANDING
CONTRACTUAL PERIOD: JULY 1, 2017 - JUNE 30, 2023

Contract #: 4400015783

This program is offered in the following language(s):
English

LearnZillion

LearnZillion Illustrative Mathematics

LearnZillion Illustrative Mathematics is the [highest-rated curriculum on EdReports](#), an independent nonprofit that reviews K–12 instructional materials' focus, coherence, and rigor.

Illustrative Mathematics is a problem-based core curriculum rooted in content and practice standards. Students learn by doing math, solving problems in mathematical and real-world contexts, and constructing arguments using precise language. High-leverage routines guide teachers in understanding concepts and procedures so that they can better facilitate student learning.

LearnZillion is Illustrative Mathematics' only certified curriculum and professional development partner. We provide the materials, tools, and support districts' need to roll out the curriculum. LearnZillion Illustrative Mathematics empowers teachers to shift math classes from Consumables time to discussion-and-problem solving time. With easy-to-use lesson plans, student materials, and built-in teacher guidance, LearnZillion's implementation removes barriers for teachers. Instead of spending hours prepping lesson materials, teachers can focus on understanding the math and differentiating to meet all their students' needs.

Each lesson includes ready-to-present, student-facing visuals accompanied by teaching notes. The teaching notes highlight practical teaching moves that keep the lesson on track and provide advice on how to meet students at different levels. As a result, LearnZillion eliminates the need for additional teacher prep work, ensuring that teachers have time to address the most important components of Illustrative Mathematics' problem-based curriculum.

In addition, LearnZillion has integrated digitized Illustrative Mathematics assessments and practice items so that teachers can receive auto-scored formative feedback on student mastery, and students can practice answering tech-enabled questions.

Please contact Farrah Lemoine at farrahlemoine@learnzillion.com or 337-258-1323 for more information.
