The InvestiGator Club Inquiry-Based Learning Systems Infant/Toddler, Preschool Curriculum Description

The InvestiGator Club® Learning Systems are inquiry-based, fully integrated, comprehensive curriculums complete with all the literature, components, and teacher support needed for a full year of learning and fun.

Lessons and activities along with innovative instructional materials provide instruction that targets all content areas, with 100 percent coverage of the Louisiana Department of Education early childhood content standards.

“Purposeful Inquiry,” the heart of The InvestiGator Club, awakens and motivates the scientist and explorer in every child. Content is learned through investigation, play, and opportunities for both child-initiated and teacher-guided activities. Children learn by exploration and inquiry using prior experiences and natural curiosity about the world and their place in it.

The InvestiGator Club provides a comprehensive ongoing assessment system that addresses the needs of children, teachers, and administrators. In 2017, Pearson and Robert-Leslie Publishing will be offering an optional online curriculum and assessment system that integrates the Work Sampling® System with the InvestiGator Club to provide the most comprehensive and research-based integrated early childhood system available.

Meaningful family involvement is critical for a child's achievement and success in later life. Multiple family engagement resources are included in InvestiGator Club, including a classroom subscription to Dilly's Tree House™, winner of the AAP Beyond the Classroom Revere Award.

Little InvestiGators™ is a play and discovery program for infants and toddlers. Learning through relationships, play, and the environment provides a strong foundation for integrating learning and growth in all areas of development from birth to three years old.

Little InvestiGators, which includes both the Baby InvestiGators™ and InvestiGator Tots™ programs, is based on scientifically valid research. The program is designed to support infant and toddler growth by meeting each individual child at the appropriate developmental stage and providing layered support and ongoing observation to encourage learning and development.
