

THE MATH LEARNING CENTER
BRIDGES IN MATHEMATICS & NUMBER CORNERS

MEMORANDUM OF UNDERSTANDING
CONTRACTUAL PERIOD: JULY 1, 2014 - JUNE 30, 2017

**STATE OF LOUISIANA
DEPARTMENT OF EDUCATION CONTRACT**

This attachment includes pricing for Bridges in Mathematics as well as additional information and other notes related to the terms and conditions of the state contract.

Products

Bridges in Mathematics second edition classroom kits include teachers' guides, premade components for games and activities, and manipulatives. In addition to the physical materials each Bridges classroom kit comes with free access to the Bridges Educator site, a teacher support portal. For more details please see: <http://catalog.mathlearningcenter.org/catalog/bridges-2nd-ed-grades-k-5>

Pricing is presented on the following page. Please note the following:

- While Bridges kits are comprehensive there are some common classroom items not included.
- For a full list of manipulatives including items not included please see:
<http://catalog.mathlearningcenter.org/files/images/RNI/Inventory-BRIDGES.pdf>
- Consumable student books are optional as the student pages are available in PDF format on the Bridges Educator site and may be printed as needed.
- Purchasers of classroom packages may be eligible for a 50% discount on initial consumable student book orders.

To place an order please contact customer service at 800-575-8130. Additional information is available on our website at <http://catalog.mathlearningcenter.org/howto>

Professional Development

Generally with the adoption of Bridges a two-day Getting Started workshop is provided at no charge. However, districts or schools with less than 50 elementary teachers may be asked to share some of the costs. Currently the full price of a Getting Started workshop for up to 30 participants is \$5,000.

Our workshop leaders are experienced educators who have used our materials and methods in their own classrooms. Additional consulting services are available by contract.

Other Notes

- Manufacturing Standards and Specifications for Textbooks are not applicable as the consumable student books are optional.
- When text errors are corrected the revised electronic version of the materials are posted within Updates section of the Bridges Educator site.
