This public document was published at a cost of \$339.50. One hundred copies of this public document were published in this first printing at a cost of \$339.50. This document was published by the Louisiana Department of Education; Office of Management and Finance; Division of Planning, Analysis and Information Resources; P.O. Box 94064; Baton Rouge, LA 70804-9064. This material was printed in accordance with the standards for printing by state agencies established pursuant to R.S. 43:31. Printing of this material was purchased in accordance with the provisions of Title 43 of the Louisiana Revised Statutes.

## Introduction

This report contains the average Composite, English, mathematics, reading, and science reasoning American College Test (ACT) scores at both the district and school levels. The averages were computed by using the ACT scores most recently obtained by the students who were or would have been members of the Louisiana 2000 graduating class. Scores are reported for **public schools only** including the laboratory schools and the Louisiana School for Mathematics, Science and the Arts (Natchitoches Parish). The state and national average scores, however, were computed using the scores of both public and nonpublic school students. The first table provides the district, state, and national average composite scores for 1998, 1999, and 2000. The remaining tables provide the 2000 school-level scores.

## Summary of ACT Results

- From 1999 to 2000, the average composite score for Louisiana public and nonpublic students remained at 19.6 out of a possible 36. The national average composite score, which included the 49 other states and the District of Columbia, remained at 21. From 1997 to 1999, Louisiana students gained on the rest of the nation by a tenth of a point each year, increasing from 19.4 to 19.6.
- Louisiana's public and nonpublic students combined showed a gain in science reasoning by increasing from 19.5 in 1999 to 19.6 in 2000. Louisiana's average scores in English (19.7) and reading (19.7) remained the same as those in 1999. In mathematics, Louisiana's average score decreased from 18.9 in 1999 to 18.8 in 2000.
- Twenty-four of Louisiana's 66 public school districts had increased average composite scores from 1999. Plaquemines Parish showed the biggest gain of any public school district, increasing from 18.1 in 1999 to 19.2 in 2000, a 1.1-point jump. East Carroll Parish had the second-largest gain, increasing from 14.7 in 1999 to 15.7 in 2000, a 1-point jump. Thirty-seven districts had decreased average composite scores from 1999, and five districts maintained the same average composite score.
- Louisiana was one of the five states with the highest proportion of graduates taking the ACT: Mississippi (84 percent), Louisiana (80 percent), North Dakota (80 percent), Tennessee (78 percent), and Kansas (77 percent). The percent of Louisiana graduates taking the ACT in 2000 increased four percentage points from 76 percent in 1999.
- In a ranking of average ACT composite scores for the sixteen Southern Regional Education Board states, Louisiana's average was ranked thirteenth, above the averages of North Carolina (19.5), South Carolina (19.3), and Mississippi (18.7).
- Proportionally, there were more students from poor families taking the test in Louisiana than nationally and fewer from higher income families. In Louisiana, 14 percent of the participants were from families with a family income of less than \$18,000, compared with 8 percent nationally.
- The ethnic group composition of the Louisiana population of ACT testers was different from that of the nation. While the national population consisted of 72 percent white students, 10 percent African-American/Black students, and a small percentage of other ethnic groups, the Louisiana population contained fewer white students (62%), more African-American/Black students (27%), and very few students from other ethnic groups.

## 1998,1999, and 2000 District ACT Results

District Name	1998	1999	2000
Acadia	18.9	18.9	18.4
