

**Louisiana's ELA Accelerate: Tools and Materials Deep Dive
Teacher Leader Summit 2022**

Planning ELA Accelerate Implementation	
Which Accelerate units will you use to support student learning? <i>Consider the ELA Guidebooks units you are using or other curricula for which these units can build background knowledge to accelerate student learning.</i>	
How will you prepare to accelerate your students' learning?	
What data will you collect to determine student need?	
Will you make printed copies or have students answer digitally?	
Is any training needed at your school or in your school system? If so, specify which professional development opportunities could be of assistance.	
How will you schedule Acceleration? Consider both the school system's calendar and the school day.	
Additional Notes:
