**If yes, please explain how the LEA will provide expanded academic support for students in grades three through eight who failed to achieve mastery on any statewide assessment administered pursuant to the state's school and district accountability system in reading or math in the previous academic year?** (All areas outlined in [RS 17:100.13](#) should be addressed)

RTI will be provided during the school day. 30-45 minutes during the day will be provided for interventions. Interventionists, paras, and teachers will all pull students who have tested for learning deficits on Dibels and Zearn. Remediation will be provided through the use of mClass (CKLA literacy program.) mCLASS includes DIBELS 8th Edition's one-minute measures, a built-in dyslexia screener, intervention, and reports to target specific students for interventions. Math will be supported through the same method using Zearn. At first, students work through grade-level concepts with an embedded daily diagnostic to assess understanding which automatically launches a Boost lesson with support and scaffolding from prior grades or units. If students need deeper interventions, Zearn offers tailored foundational content guidance, recommending intervention lessons connected to the same critical content that their teacher is teaching. After-school tutoring will be provided as needed.
