Needs Assessment

How will the LEA identify needs to address: 1. Student attendance and well-being, 2. Academic recovery and acceleration, 3. Professional learning and development, 4. School safety and operations, and 5. Data infrastructure (check all that apply)

- Student demographic data, such as race or ethnicity, FRPL eligibility, or English learner status
- Student outcome data, such as assessments, readiness exams, literacy screeners, etc.
- Student individualized education plans/ 504
- Student enrollment and attendance data
- Student instructional mode (virtual, hybrid, in-person)
- Student course enrollment data

- By clicking this checkbox I confirm the data indicated above will inform the school systems plan for addressing:
 1. Student attendance and well-being,
 2. Academic recovery and acceleration,
 3. Professional learning and development,
 4. School safety and operations, and
 5. Data infrastructure.

[High-quality quality curriculum](#)

- [ELA Guidebooks](#)
- [Bayou Bridges \(Social Studies\)](#)
- [OpenSciEd Pilot](#)

High-quality assessments aligned with instructional materials

[Professional learning](#) to teachers aligned with high-quality materials

Extended school day (If implementing before/after school programs separate from the school day, please use that category.)

Extended school year (If implementing summer programs separate from the school day, please use that category.)

Will the LEA serve students in grades three through eight in the 2023-2024 academic year?

Yes

If yes, please explain how the LEA will provide expanded academic support for students in grades three through eight who failed to achieve mastery on any statewide assessment administered pursuant to the state's school and district accountability system in reading or math in the previous academic year? (All areas outlined in [RS 17:100.13](#) should be addressed)

The Purpose of tutoring at KIPP is to accelerate learning by increasing instructional minutes and supporting student academic progress with targeted, small group instruction aimed directly at students' needs that complement existing curriculum, focus on specific goals, and happen outside of the regular school day.

KIPP has a performance-based compensation structure with the purpose to provide professional development, coaching cycles, and a comprehensive evaluation process to promote the quality of performance. KIPP prioritizes matching students who need support with the most experienced and qualified teachers available to them. KIPP has certified mentor teachers at each school.

KIPP uses approved, tier 1 curriculum. KIPP's Academic Team works closely with the curriculum and provides coaching and support to schools. Curriculum is used for both standard instruction and accelerated intervention blocks.

School staffing models include additional teaching roles (Co-teachers & Interventionists) to ensure that all students who need support receive small-group and/or 1:1, grade-level accelerated instruction. Positions are assigned to specific groups of students to promote continuity of supplemental instruction.

Type of Academic Support (select all that apply)

Accelerated instruction (beginning no later than 30 days after student(s) are identified)

Prioritized placement (in a class taught by a teacher rated "highly effective" pursuant to the state's teacher evaluation system)

Will the LEA make significant changes in providing targeted learning supports during the 2023-2024 school year? (Hiring new positions, establishing new teams, adopting new curriculum/ resource, revamping schedules, etc.)

No

Key Investment: Before and After School Programs

Which evidence-based activities will the LEA invest in? (check all that apply)

- [Utilize high-quality math curriculum](#)
- Develop Math Content Leaders

How will the LEA implement the Louisiana Math Refresh across their sites?

KIPP uses approved Tier 1 math curriculum at each grade-level and implements "Teacher Best Practices for Accelerating Math Learning". Math Content Leaders in-training work with our KIPP Academics Team to build knowledge and expertise within the curricula, instructional strategies, and assessments. KIPP uses aligned, quarterly interim assessments and progress monitoring to maintain accurate data on student achievement and progress. KIPP fully implements the "Acceleration Cycle". KIPP's Co-Teachers and Interventionists work alongside lead teachers to implement the acceleration structure. After school tutoring is utilized when additional time is needed to ensure students are progressing. KIPP partners with Thrive Collective, an approved alternative evidence-based option, for math professional development.

Which activities will the LEA invest in to improve data systems, ensure internet safety, and implement effective cybersecurity practices? (check all that apply)

- Implement an early warning system to track student progression
- Upgrade data systems and reporting
- Increase data storage capacity
- Invest in staff upskilling in data literacy/science/analysis
- Invest in data dashboards or other activities to improve public transparency

Describe how the LEA is upgrading and/or ensuring proper cybersecurity and system upgrades are being implemented/planned.

KIPP continues to invest in both strategic and tactical enhancements of their IT operations through investments in people, process, and technology aligned with ensuring students and staff have reliable, resilient, and robust connectivity that is aligned to curricular goals and student achievement outcomes.

KIPP is focused on maintaining a proactive approach when it comes to procurement, installation, maintenance, and monitoring of their IT infrastructure. KNOS has undertaken strategic risk assessment efforts to define and serve as a guiding framework for these investments, and is adding senior staff, technology, and process to better support both staff and student populations.

In particular, KIPP is focused on ensuring that each campus has sufficient connectivity, resilience, and visibility.

Enhancements at the network level will include replacement of aging, legacy equipment, as well as networked video cameras to support school safety and operations teams. Processes around help desk and remote administration will help ensure our technology teams are operating efficiently, and security enhancements involving both cloud services and local workstations and servers will harden our infrastructure against evolving threats.
