How to Implement Act 833-
Individual Performance Criteria
November 2014
Webinar Logistics

• All participant microphones are muted
• Questions may be entered in the comment box throughout the presentation and will be answered at the end of the session.
ACT 833 Guidance

- This presentation is the third in a four part series developed to address how to implement the various components of Act 833 including:
  - Graduation
  - Promotion
  - Alternate performance criteria
  - Preparing for post-secondary outcomes

Objectives

By the end of this presentation participants will be able to:
- Identify students eligible for individual performance criteria
- Develop rigorous goals and objectives related to content area(s) and student need
- Identify resources to measure individual performance criteria
Agenda

• Review eligibility requirements
• Student examples
• Developing individual performance criteria
• Assessing student progress
Individual Performance Criteria
Eligibility and Responsibilities Review
The IEP team should review the records of Act 833 eligible students and determine if and when it is appropriate to apply individual performance criteria

Include strengths, parental concerns, evaluation results, academic, developmental, and functional needs, statewide assessment results, progress or lack of expected progress in general education curriculum, and consideration of special factors: behavior, language needs for limited English proficient, instruction in and use of braille, communication needs, assistive technology devices and services, and health needs.

The IEP team should document Act 833 eligibility in the General Student Information section of the IEP.

The IEP team should document previous assessment results that support Act 833 eligibility.
Developing an Educational Plan that Incorporates Act 833
During the IEP meeting the team must:

1. Identify the student’s strengths and weaknesses relative to the student’s disability
2. Review the student’s schedule to determine what course(s) and End of Course tests may be impacted by the student’s disability
3. In conjunction with the teacher of record for the courses where Act 833 is being applied, review the state standards and determine the appropriate performance criteria for the student that outlines what the student needs to learn and how they will demonstrate achievement of grade level expectations as demonstrated on benchmark assessments
4. Develop annual goals, objectives, and a plan for monitoring and assessing student progress throughout the duration of the course that will be incorporated when the teacher of record awards course credit
The Student:
Joshua is a 10th grade student whose specific learning disability impacts his ability to perform at grade level in the areas of reading comprehension and reading fluency. Joshua has difficulty with higher order thinking skills such as making inferences, summarizing text, and predicting outcomes based on information presented in text or other materials such as graphs, maps, and/or tables. He also needs support in identifying strategies to decode unfamiliar words. His reading deficits impact his ability to complete assignments in the expected amount of time and he is often reluctant to participate in class discussions related to on-grade level texts. The school Joshua attends implements a 4X4 block schedule and is enrolled in 8 courses each year.

Act 833 Eligibility:
The IEP team has reviewed Joshua’s previous assessments results and found that he received the following:
7th grade: Unsatisfactory on ELA and Basic on Math
8th grade: Unsatisfactory on ELA and Approaching Basic on Math
Joshua is eligible to demonstrate mastery of course content through alternate performance criteria according to Act 833.

IEP Team Next Steps:
Determine whether to apply Act 833 to appropriate courses based on Joshua’s needs, develop goals and objectives aligned to the grade level standards, and determine how to monitor and assess progress.

After reviewing Joshua’s schedule and identified needs, his IEP team has determined that it is most appropriate to apply Act 833 performance criteria to English II and Civics.

**IEP Team (and teacher of record) Next Steps:**

1.) Review the standards for [English II](#) and [Civics](#).

2.) Develop appropriate individual performance criteria that Joshua must meet that outlines what Joshua needs to learn and how he will demonstrate achievement of grade level expectations as demonstrated on benchmark assessments for English II and Civics.

3.) Update goals, objectives, and plan for monitoring and assessing Joshua’s progress in English II and Civics.
The IEP team should review:

- The **Academic Standards Library** to determine:
  - The intent of the content standards for specific courses
  - What must the student know and be able to do to meet the content standards

- The **Achievement Level Descriptors** for each EOC to:
  - Prioritize the skills the student needs when determining alternate performance criteria and IEP goals and objectives.
    - For example, if a student has previously scored *Needs Improvement*, the IEP should include goals and remediation strategies that would allow the student to master the descriptors in the *Fair* category.

Joshua struggles with decoding words in text and would benefit from developing strategies to decode unfamiliar words when reading literature and informational text.
When developing individual performance criteria, the IEP team should specify how/when the student and team will be informed of the student’s progress toward the goals/objectives and the extent to which the student is making sufficient progress.

Student progress should be monitored and assessed through a variety of activities such as:

- Classroom Participation
- Classwork
- Homework
- Observation
- Special Projects
- Tests and Quizzes
- Written Reports
Multiple resources are available to measure student progress towards individual performance criteria for courses where Act 833 is applied. This includes but is not limited to:

**LDOE Developed:**
- Curriculum and Assessment Teacher Support Library
- Assessment Library
- Math Guidebook
- English Guidebook
- Eagle 2.0

**District Resources:**
- Chosen Curricula
- Benchmark Assessment Systems
Eagle 2.0

• EAGLE 2.0 is an online assessment tool that supports formative assessment in the classroom and can be used to aid and support student learning throughout the year. The system provides teachers the ability to build online tests, assign them to students, and receive student performance reports on items aligned to the state standards.

• The Eagle How to Guide assists teachers with reviewing teacher made tests, creating new tests, and scheduling tests for students.
Developing an Individual Performance Criteria Measure in Eagle

Select assessment tasks aligned to identified standards to measure student achievement of individual performance criteria.
Developing Rigorous Goals and Objectives for Individual Performance Criteria
IEP Goals and Objectives

The IEP team should indicate the Educational Need Area and also include the Content Area and identify if the goal is targeted for the students transition services or ESY instruction.

Objectives should be included for students demonstrating alternate performance criteria.
Educational Need: Academic Cognitive

Content Area: English II

Using templates and graphic organizers, Joshua will make predictions, draw inferences, and access prior knowledge when reading on-grade level texts and express understanding of texts through speaking and writing with 80% accuracy on 4 out of 5 collected work samples.
**Objective 1:** After listening to a grade-level text read aloud and then reading the text independently, Joshua will orally summarize the content of the text with 80% accuracy as measured by teacher observations and weekly student work samples.

The Civics teacher of record awarded credit for Civics based on Joshua’s performance in the course and the work that was completed to meet his goals and objectives outlined in his individual performance criteria for the course.
The IEP team should take the following steps when implementing individual performance criteria for students eligible under Act 833:

1. Determine the specific courses that are appropriate for individual performance criteria based on the student’s needs
2. Establish goals on the IEP to address the standards of the course(s) and the student’s needs
3. Establish objectives that outline the student’s individual performance criteria that will be incorporated in awarding course credit
4. Establish a plan for monitoring progress towards the goals and objectives
5. Establish a plan for assessing mastery of goals and objectives
Next Steps

• The next module in the Act 833 series will address preparing for post secondary outcomes which includes effective transition planning in the IEP. The webinar will be held the week of December 15th.

• Contact your Network POC with any additional questions.
