**PURPOSE**

This document is designed to assist Louisiana educators in understanding the English Language Proficiency Test (ELPT) for English Learners (ELs) in grades K-12.

**Introduction**

The English Language Proficiency Test (ELPT) is designed to assess the English proficiency of students who meet the participation criteria for English Learners (ELs) as they progress through their K–12 education. In pursuit of this, ELPT draws upon emerging technologies and innovative methods to measure progress, encourage reclassification relative to grade-appropriate performance, and determine which districts are meeting accountability goals for ELs.

The ELPT items are designed to gather evidence that demonstrates how students are progressing toward full English language proficiency and meeting the skills measured through the LA Connectors for ELs. The standards describe how language is used to meet the rigorous content demands in each grade through the integration of academic language and content. The test presents a range of items in the four language domains of reading, writing, speaking, and listening and results are reported individually for each category. Proficiency in the domains is measured by increases in:

- the amount or sophistication of words or ways of combining words;
- repertoire of use and expansion of the types of relationships students can construct between ideas (e.g., additive, causal, conditional, contrastive) and the number of ways students are able to construct those relationships between ideas;
- accuracy in constructing precise meanings;
- contextualization, the ability to tailor the use of language functions to fit a variety of sociocultural contexts; and
- autonomy, which is observed by the need for fewer language supports and scaffolds as proficiency increases.

Students are presented with age-appropriate language to measure the proficiency level of students who are just beginning to learn English to those who are fully English proficient. All identified ELs in grades K-12 will take ELPT each year until they meet the criteria to exit.

**PARTICIPATION CRITERIA**

All students identified ELs are required to take ELPT. To determine eligibility, all students aged 5 through 21 who are enrolling in an English-speaking elementary/primary, middle, or high school are given a home language survey. That survey should contain evidence of **at least one** of the following to begin testing, the student:

- was not born in the United States and their native language is a language other than English;
- is Native American or Alaska Native or a native resident of the outlying areas and comes from an environment where a language other than English has had a significant impact on their level of English language proficiency;
- is migratory and their native language is a language other than English; and/or
- comes from an environment where a language other than English is dominant.

The [English Learner Identification Flowchart](#) will help school systems decide which students should be screened for English proficiency and what do if the students are eligible for services. If a student does not score “proficient” on the screener (English Language Proficiency Screener, ELPS), then the student is identified as EL and evaluated for appropriate content area accommodations. Schools then send a letter home to the student’s family asking permission to place the student in the EL program. All students, even if they have refused services, must take ELPT.

**ELs with Disabilities**

Consistent with federal law, all ELs, including students with disabilities, have an equal opportunity to learn English language skills and participate in the ELPT. The School Level Building Committee (SBLC) team in consultation with the IEP team and the English Learner teacher is authorized to make decisions for English Learners. If the IEP team determines that a student’s disability directly impacts language acquisition and EL services will not help the student because the student’s disability inhibits progress in language acquisition, the student should not be classified as an EL or the EL status reviewed by the SBLC. Students who meet the participation for LEAP Connect can be reclassified sooner until an alternate ELPT is available.
ASSESSMENT DESIGN
The ELPT is a computer-based test, designed to be engaging and interactive with innovative questions reflecting classroom and real-world scenarios in all four language domains. Teachers do not score any session because the online platform collects all responses (even speaking) for scoring off-site.

About the Standards
The LA Connectors for ELs are a set of fully integrated standards that provide a connection between language and content acquisition. These standards highlight and amplify the critical aspects of language, knowledge about language, and skills using language that are needed by ELs as they develop competence in each grade. The LA Connectors for ELs allow students to participate in the same content and curriculum as native speakers by providing opportunities to take on complex texts and challenging activities while developing language necessary to master each subject and to effectively participate in the classroom.

Reporting Categories
The ELPT measures and reports on students’ English language proficiency overall, as well as in reading, writing, speaking, and listening. Scores are reported by domain, and then these scores are compiled into a profile. The ELPT has 5 Performance Levels and 3 Proficiency Determinations as described in the tables that follow:

<table>
<thead>
<tr>
<th>Performance Level</th>
<th>Description</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Level 1</td>
<td>Beginning</td>
<td>Displays few grade-level English skills and will benefit from EL program support</td>
</tr>
<tr>
<td>Level 2</td>
<td>Early Intermediate</td>
<td>Presents evidence of developing grade-level English language skills and will benefit from EL program support</td>
</tr>
<tr>
<td>Level 3</td>

<td>Applies some grade-level English language skills and will benefit from EL program support</td>
</tr>
<tr>
<td>Level 4</td>
<td>Early Advanced</td>

</tr>
<tr>
<td>Level 5</td>
<td>Advanced</td>
<td>Exhibits superior English language skills as measured by ELPT</td>
</tr>
</tbody>
</table>

Proficiency requires meeting a combination of expectations across all four domains.

<table>

<td>• profile of Levels 1 and 2</td>
<td>• not yet attained English language skill necessary to produce, interpret, and collaborate on grade-level content-related academic tasks in English • eligible for ongoing program support</td>
<td>2, 1, 1, 2</td>
</tr>
<tr>

<td>• attained English language skills necessary to independently produce, interpret, collaborate on, and succeed in grade-level content-related academic tasks in English</td>
<td>5, 5, 4, 4</td>
</tr>
</tbody>
</table>
Additionally, ELPT is developed by grade-band, but scores are reported at grade-level, and as a result, different profiles may indicate proficiency in different grades. Because of this, students at different grades within the same grade-band who earn identical scores may fall into different performance levels and receive different proficiency determinations. This is because the expectation (e.g., cut score, or standard for proficiency) increases for each grade.

**Performance Level Descriptors**

Performance Level Descriptors describe the knowledge, skills, and abilities a typical student at each level should be able to demonstrate based on his or her command of grade-level English.

**Exit Criteria**

To exit the EL program and be re-classified as “monitored,” students will need a proficiency determination of **Proficient**. Students are then monitored for two years.

If a student is EL and has a disability that is hindering their language acquisition process, the student may be reclassified as non-EL after four years. This decision should be made in collaboration with the SBLC, IEP team, and EL teacher.

**ELPT Design by Grade**

Tasks contain technology-enhanced items (TEI), selected-response (SR), and constructed-response (CR) items. Reading and listening tests SR and TEI items. Writing tests contain SR and CR items, and speaking tests contain all CR items. The test contains field-test items that will not count toward students’ scores. These include short speaking-response items and others in the remaining 3 domains. Students may encounter the following types of tasks on the ELPT.

Items in the writing and speaking domains are scored with rubrics for each task type. Sample items and examples of rubrics can be found in Appendix C. Tasks in the speaking domain will be recorded and hand-scored at a central location and not by the teacher or test administrator.

Description of Question Types

- **Selected Response (SR):** Students are presented with questions followed by 3-4 answer choices.
- **Constructed Response (CR):** Students are presented with tasks and must respond by writing or by speaking. Rubrics for speaking and CR writing questions can be found in Appendix C.
- **Technology Enhanced (TE):** Students use technology to capture their response. These may include drag and drop, dropdown menus, and text highlight.

TEST ADMINISTRATION

ELPT is taken through the AIR testing system. Resources, such as the Test Administration Manual (TAM), for providing training to schools and teachers is found in the ELPT portal. Students taking the ELPT will need headsets with microphones; Pages 3-4 of the Assessment Technology Specifications in the Assessments Library detail the necessary specifications. The way each answer is entered depends on the item type (e.g., selected response, drag and drop, spoken response, etc.). All students should work through the ELPT Online Tools Training to practice using the online tools, so they are well prepared to navigate the online testing system.

Administration Schedule

The ELPT is administered February 3 - March 13, 2020.

Test Accommodations

Accommodations are changes in procedures or materials that increase equitable access during the ELPT and generate valid test results for students who need them. Accommodations must be documented in an IEP or 504 accommodation plan. More information about which accommodations are available on ELPT and are detailed in the ELPS/ELPT Accessibility and Accommodations Manual.

Test accommodations listed on the English Learners (EL) Accommodation Checklist cannot be used for ELPT testing. Such accommodations would subvert the purpose of the ELPT to measure the student’s proficiency in English.
RESOURCES

- **ELA Guidebooks 2.0**: whole-class curriculum focused on real learning grounded in a collection of texts, includes scaffolding ideas for ELs
- **LA Connectors for ELs**: comprehensive list of standard connectors for ELs for each grade level
- **ELA Guidebooks 2.0: Diverse Learners**: provides strategies and materials to support all learners, including ELs who need language supports
- **Louisiana Believes-English Learners**: contains resources and helpful links for teachers of ELs
- **English Learner Guidebook-Changing Educational Outcomes for English Learners**: provides guidance to school systems and school-site leaders in implementing high-quality instruction for ELs
- **ELPT Online Tools Training**: provides students to become familiar with the tools available in the online testing platform
- **ELPT Portal**: access to manuals and supporting materials for the ELPT
- **ELPT Test Administration Manual (TAM)**: provide specific instructions for the administration of the ELPT Summative Assessment. Details include information on security, coding, and logistical requirements and the Test Administrator directions to students.
- **ELPS/ELPT Accessibility and Accommodations Manual**: designed to guide the selection and administration of appropriate universal features, designated features, and accommodations for individual students to produce valid assessment results.
- **ELPT Performance Level Descriptors**: describe the knowledge, skills, and abilities a typical student at each level should be able to demonstrate based on his or her command of grade-level English.
- **Parent Guide to ELPT**: guide to the test for parents; also available in Arabic, Spanish, and Vietnamese
- **Parent Guide to ELPT Student Reports**: guide to ELPT test results also available in Arabic, Spanish, and Vietnamese
- **Contact Us: AskLDOE** electronic ticket system; assessment@la.gov for assessment questions
- **Newsroom**: offers archive copies of newsletters including the LDOE Weekly School System Newsletter and the Teacher Leader Newsletter

---

**Image:**

A student is tasked with dragging and dropping labels to correctly label the Rainforest layers. The layers include Canopy, Emergent Layer, Equator, Forest Floor, Umbrella, and Understory.

---

**Text:**

This is a drag and drop TE item. Here a student would correctly label the Rainforest layers by selecting a label, and dragging and dropping it into the corresponding box.

---

**Example Task:**

Listen to an announcement from the school principal. Follow the speaker's directions for a writing task.

Now write the first question for the visitor here.

---

I have great news everyone. A famous journalist is going to come to our school. His name is Jose Medina. He is going to visit next week! I am collecting questions from students before Mr. Medina visits. Mr. Medina has traveled all over the world covering news stories. He currently writes for a very popular news magazine.

Write three questions that you want to ask the visitor. Be sure to write in complete sentences.
Grade 9-12 Writing

LA Connector: 9

Select the correct words to complete the sentences.

The rocks on Mars form a variety of impressive landforms on its surface. Mars has mountains and valleys just like Earth. The atmosphere on Mars is very different. The air is thin and cold, which would make it difficult for life to survive on the surface. Scientists have still not found a way for humans to make their way to the Red Planet, but they have been able to send robots the surface. This is one of the reasons why we know so much about this fascinating planet.

Student summary of the experiment

Five plants were given different amounts of water each day over a six-week period. At the end of the six weeks, all the plants were measured for vertical growth. The plants that received less than 6 milliliters (ml) of water each day grew less than 2 inches. The plants that received 6 or more milliliters of water each day grew more than 3 inches. The plant that grew the most received 6 milliliters of water each day.

This is a dropdown menu TEI. Here a student would select the correct option from each dropdown menu to correctly complete the sentences.

This is a hot spot TEI. Here a student would answer the question by directly selecting the correct bar in the graph.
Grades 2-3 Speaking
Task: Compare Pictures
LA Connector: 2, 10

Each student will respond to each Speaking Item by using the microphone to record their response. Here a student would record their verbal comparison of the two pictures.

Grades 2-3 Reading
Task: Read-Along Sentence
LA Connector: 9

This is a drag and drop TEI. Here a student would correctly label the complete the sentence by selecting each word, and dragging and dropping it into the corresponding box.

| 4     | Responses at the 4 level are typically characterized by:  
        - The response contains vocabulary and sentence structures (simple and compound) that are appropriate. Word choice and grammar are generally accurate, but the response may contain a few noticeable errors that do not interfere with meaning.  
        - Though many words in the response are spelled correctly, challenging or infrequent words may be spelled phonetically.  
        - The student successfully responds to the topic and task by composing a narrative that recounts a coherent sequence of events. The response is organized, and uses temporal words and conjunctions to connect events in sequence. |
| 3     | Responses at the 3 level are typically characterized by:  
        - The response contains vocabulary and sentence structures that are appropriate, though the range may be somewhat narrow and errors may occasionally obscure meaning.  
        - The response contains a mix of correctly and phonetically spelled words.  
        - The narrative partially addresses the task, using information from the stimulus to describe a sequence of events. However, some details from the stimulus may be absent or incorrectly described in the response. There is organizational logic in part of the response, though the use of connecting or temporal words may be limited. |
| 2     | Responses at the 2 level are typically characterized by:  
        - Limitations in the range of vocabulary and structures as well as frequent errors obscure meaning throughout much of the response, though a few parts of the response may be clear.  
        - The response may contain a mix of correctly and phonetically spelled words as well as one or two unrecognizable words.  
        - The narrative is limited in addressing the task and may be limited to the most basic information from the stimulus. Details are missing or irrelevant. Connections between ideas are missing or obscure. |
| 1     | Responses at the 1 level are typically characterized by:  
        - The response consists of a few isolated English words related to the prompt or stimulus other than those included in the word bank. The words may be spelled phonetically.

  - The response contains appropriate vocabulary and sentence structures (simple and compound). Word choice and grammar are generally accurate, but the response may contain a few noticeable errors that do not interfere with meaning.  
  - The student successfully presents an opinion supported by well-developed information and reasons. The response is organized, and uses linking words and phrases to connect ideas. |
| 3     | Responses at the 3 level are typically characterized by:  
  - The response contains appropriate vocabulary and sentence structures (simple and some compound), though the range may be somewhat narrow and errors may occasionally obscure meaning.  
  - The response partially addresses the task, using somewhat developed information and reasons to support an opinion. There is organizational logic in part of the response, though the range of connecting words may be limited. |
| 2     | Responses at the 2 level are typically characterized by:  
  - Limitations in the range of vocabulary and structures as well as frequent errors obscure meaning throughout much of the response, though a few parts of the response may be clear.  
  - The response is limited in addressing the task and information or reasons to support the opinion may be incomplete or irrelevant. Connections between ideas may be missing or obscure. |
| 1     | Responses at the 1 level are typically characterized by:  
  - The response consists of a few isolated English words and phrases related to the prompt or stimulus.  
  - Frequent and serious errors obscure meaning most of the time. |
| 0     | The response does not address the communicative demands of the task OR the response contains no English OR the response is off topic and does not address the prompt. |

• The response contains vocabulary and sentence structures (simple and compound) that are appropriate to the pictures. Word choice and grammar are generally accurate, but the response may contain a few noticeable errors that do not interfere with meaning.  
• The student successfully responds to the topic and task by composing a narrative that recounts a coherent sequence of events. The response is organized, and uses transitional and temporal words to connect events in sequence. |
| **3** | Responses at the 3 level are typically characterized by:  
• The response contains vocabulary and sentence structures (simple and some compound) that are appropriate to the pictures, though the range may be somewhat narrow and errors may occasionally obscure meaning.
