

This document contains the answers to all items on the grade 5 ELA Practice Test, as well as alignment and scoring information. Refer to the [ELA Practice Test Guidance](#) for information on how to incorporate the practice tests into instruction, as well as a scoring activity.

Although the actual test contains only three sessions and two tasks—a Research Simulation Task (RST) AND a Literary Analysis Task (LAT) OR a Narrative Writing Task (NWT)—the practice test includes four sessions and all three tasks so students can address Writing standards 1, 2, and 3. See the [Grade 5 ELA Assessment Guide](#) for more information about the test’s design.

Key for Technology-Enhanced Items

Session 1, Item 4

- 14 I took off my clothes, picked up my ax, and stepped down into the hole in the icy water. It came to my knees. Step by step, breaking the ice with my ax, I waded out.
- 15 The water came up to my hips, and then to my waist. The cold bite of it took my breath away. I felt my body grow numb. I couldn't feel my feet at all but I knew they were moving. When the water reached my armpits I stopped and worked my pole toward Little Ann. Stretching my arms as far out as I could, I saw I was still a foot short. **Closing my eyes and gritting my teeth, I moved on.** The water reached my chin.
- 16 I was close enough. I started hooking at the collar of Little Ann. Time after time I felt the hook almost catch. I saw I was fishing on a wrong angle. She had settled so low in the water I couldn't reach her collar. **Raising my arms above my head so the pole would be on a slant I kept hooking and praying.** The seconds ticked by. I strained for one more inch. The muscles in my arms grew numb from the weight of the pole.
- 17 Little Ann's claws slipped again. I thought she was gone. At the very edge of the ice, she caught again. All I could see now were her small red paws and her nose and eyes.

Session 3, Item 30

- 4 Prey animals, such as elk, deer, or antelope, play differently. **They dash about like crazy, leaping wildly in the air—twisting, turning, twirling.** According to biologist John Byers of the University of Idaho, they act like they have “flies in their brains.” But these animals are rehearsing skills they’ll need one day to escape predators and avoid becoming dinner.
- 5 During play, animals constantly monitor their behavior to keep play going. If one animal plays too roughly, the play ends. To keep things fun, they often reverse roles. A stronger or dominant animal will lie on its back, assuming a submissive position, while a weaker animal gets to play “boss.”

Scoring of Grade 5 PCRs				
Task	Dimensions	Points by Dimension	Total Points	Rubric
Literary Analysis	Reading Comprehension and Written Expression*	16 points (4 times holistic score)	19	LAT/RST Rubric
	Conventions	3 points		
Research Simulation	Reading Comprehension and Written Expression*	16 points (4 times holistic score)	19	LAT/RST Rubric
	Conventions	3 points		
Narrative Writing	Written Expression	9 points (3 times holistic score)	12	NWT Rubric
	Conventions	3 points		

*When scoring the Reading Comprehension and Written Expression dimension, the holistic score (4, 3, 2, 1, 0) is determined, based on which score point best describes that response. That holistic score is multiplied by 4. This means that if a student receives a 2 for Reading Comprehension and Written Expression, the student will receive a score of 8 for this dimension. This score is then added to the Conventions score to provide the total score for the RST and the LAT.
