KNOW THE PRACTICE TESTS

Practice tests allow **students** to become familiar with the testing format and respond to some of the types of questions they may find on the LEAP 2025 or LEAP Connect tests. Practice tests allow **parents** to better understand how the tests compare to classroom work and see the types of questions students will be responding to on the tests. Talk to your child's teachers to see how they plan to use the practice tests in the classroom.
