## Additional Factors

Student Name: AA

Local ID:

1. ANTICIPATED CHANGES / TRANSITION:

AA will be going to high school next year, and as such her motor goals should focus on independence during hallway transitions.

### 2. SIGNIFICANT CHANGES:

n/a

3. CONSIDERATIONS PRIOR TO DETERMINING A STUDENT MAY NO LONGER BE ELIGIBLE FOR SPECIAL EDUCATION AND / OR RELATED SERVICES:

#### n/a

4. OTHER FACTORS:

n/a

## Conclusions

Does the team need additional or updated data to determine: exceptionality, continued need for services, accurate levels of performance and/or what changes, if any, should be made to the Individualized Education Program (IEP)?

No. Complete the reevaluation data review process with existing data.

System: 000

AA continues to qualify for the exceptionality of Orthopedic Impairment. She is currently performing on grade level in math, so it is the belief of the team at this time that she no longer requires special education supports or goals in math. However, she should continue to receive supports and services and have goals in Reading. She should continue to receive PT and APE services.

Yes. Conduct a reevaluation to collect additional or updated information needed to determine eligibility for services and/or educational programming.

#### Recommendations

Education Need Areas	Content Areas	Recommendations to Address Support Needs
Academic/Cognitive		AA should continue to receive additional support in reading to address the following areas: Skill X, Skill Y, Skill Z. Her teachers should continue to praise her strengths in Skill W to build positive momentum and avoid discouragement.
Motor		AA should continue to receive Physical Therapy services in school, targeting the following skills: Skill X, Skill Y, Skill Z.
Motor	APE	AA should continue to receive APE services in school, targeting the following skills: Skill X, Skill Y, Skill Z.
