Supplemental Course Allocation

Registration Procedures 2019-2020

updated 8/27/19
- ONLY school systems/schools may register students with providers.
- Laws concerning student privacy must be followed between the school system/school and the provider in the registration process. For more information on establishing a system of data governance, please see Louisiana’s Data Governance and Student Privacy Guidebook. For more information email ldedata@la.gov. Each school system has its own policy for student privacy and providers, and the school system should communicate those protocols before any student information is used when registering students.
- School systems/schools report final enrollment information in the LDOE system.

### Contact The Princeton Review account manager to schedule courses for your school.
- Before courses can be scheduled, school must designate a specific person to be the point-of-contact for the duration of the course.
- Point-of-contact will be required to pre-schedule preliminary, mid-term, and end-of-course meetings with Princeton Review account manager.
- Once the course details are confirmed, the point-of-contact will submit the student roster to The Princeton Review via a secure link. **This is for verification purposes and DOES NOT complete registration for the students.**
- Point-of-contact will need to submit student roster BEFORE Princeton Review can open a course section on the SCA website.
- The Princeton Review will confirm with the school’s point-of-contact once enrollments are received and open a course section on the SCA website for registration. **A specific section ID will be assigned to each school.**
- Once the course section opens for registration, point of contact MUST batch upload students (the same students submitted to Princeton Review account manager) into the appropriate section number on the SCA website. **This completes the registration process for the students.**
- ***Students enrolled in Princeton Review courses MUST exactly match the students reported to SCA via the SCA online registration system.***

### Contact Myken Caviness or Charlotte Ogburn to schedule your enrollments.
- Once you have reached out to them, they will send you an enrollment template to complete.
- Once you complete the requested information and return this, they will get the student(s) set up in the course to get started.
- All login information and login steps will be sent back to the school to give the student to begin the course.
