## Acadian Companies

<https://acadianambulance.com/our-company/company-culture/explorer/>

Acadian Ambulance partners with your school to provide students with the ability to become Emergency Medical Technicians during high school. During EMT education, students learn how to provide prehospital assessment and care of patients of all ages. Upon successful completion of the course, students will be eligible to take a National Registry exam that allows them to pursue their career in emergency medicine. Acadian Ambulance fully believes that the future of our company is in the classrooms of our communities, and we look forward to having a well-trained and educated workforce as a part of our Acadian family.

## Bard Early College

[www.bard.edu/ecno](http://www.bard.edu/ecno)

Bard Early College New Orleans offers college accredited coursework to ambitious high school juniors and seniors. All courses are taught by highly qualified university faculty who are active scholars in their fields. Bard Early College students earn Bard College credit in writing-intensive courses in the liberal arts and sciences. All courses are designed to hone students' critical thinking skills and give them opportunities to improve their writing.

## Cambridge Educational Services

[www.CambridgeEd.com](http://www.CambridgeEd.com)

Over the past 30 years, Cambridge has served over 5,000,000 students at over 4,000 schools nationwide. The unique Cambridge approach goes beyond basic test preparation and includes programming to improve essential academic skills and enhance individual and school performance, motivational components to encourage student engagement, supplemental classes to prepare students for National Merit and TOPS scholarships, workshops on college and career planning, and other elements necessary to a comprehensive readiness approach.

- Face-to-face and online models.
- Authentic pre- and post-test instruments.
- Over 150 hours of study covering core skills as well as testing mechanics.
- Computer-generated lesson plans to support effective instruction.
- Accountability tools with in-depth data analysis reports.
- State-certified teachers with years of experience.
- Empirically documented success: Recent SCA score increases include an average of 4.5 ACT points including a perfect 36.

These and other features make Cambridge the top-ranked campus-based test preparation program nation-wide and the #1 choice for the Louisiana Choice program. Call Carol Ford at 601-588-6667 or email [CFord@CambridgeEd.com](mailto:CFord@CambridgeEd.com) for more information.

## Career Campus

[www.villagevirtual.com](http://www.villagevirtual.com)

Do you need more JumpStart opportunities for your students as we face the uncertainties of COVID-19? Career Campus powered by Village Virtual can help you connect your students to high demand careers across many clusters and offer preparation for credentialing exams in several key industries. With more than twelve years of experience in online learning, the strength of the Career Campus model is its rigorous support for students and schools. Certified teachers and student support specialists maintain an on-going conversation with all stakeholders. Weekly progress reports, feedback, and access to student performance via easy-to-use tools support a phenomenal level of success in our new learning and credit recovery courses. Career Campus powered by Village Virtual is a company big enough to support scalability and growth. . . small enough to care about each client and each learner.

## East Baton Rouge Career and Technical Education Center

<https://ebrschools.org/programs/ebr-ctec/>

The East Baton Rouge Career and Technical Education Center provides training and certifications that students will need to compete in the 21st century workforce. All of our courses are taught by highly qualified educators who have multiple years working in the technical area. We offer a diverse selection of programs in Manufacturing, Construction Crafts, Information Technology and Healthcare. EBR CTEC was founded on the premise that a well-educated and well trained workforce is the key to success.

## Gateway EMS

<https://www.gatewayems.com>

Gateway EMS provides healthcare career courses in New Orleans high schools. After completing our courses students have industry based certifications that allow them to transition into high-wage/high-growth careers. GEMS grew out of a partnership between Renew Accelerated High School and Peter Seltzer when in 2017 they were seeking to expand their CTE offerings. Peter began by creating an EMS education program. A curriculum was developed, medical training supplies were acquired and the program was successfully marketed within the school. 4 separate classes were provided in the first school year and 88% of the students who regularly attended class received their Industry Based Certification of CPR and Emergency Medical Responder.

Provider	Course Type	Delivery	Course Title	Carnegie Unit	Course Price
Gateway EMS	CTE	F	First Responder/Emergency Medical Responder	1	\$1,000.00
Gateway EMS	CTE	F	Emergency Medical Technician Basic	2	\$1,900.00
Gateway EMS	CTE	F	Medical Terminology	1	\$800.00

## Global Geospatial Institute

Global Geospatial Institute is dedicated to providing parents, students, and teachers the support they need to succeed in the field of study, geospatial technology. We provide a rigorous, hands-on dedicated learning culture that develops innovative 21<sup>st</sup> Century citizens to compete in an ever-changing world. Specifically, we offer several courses teaching students to capture, store, manipulate, analyze, manage, and display all kinds of spatial or geographic data. We know that by offering a GIS Industry Based Certification (IBC), we can develop students into lifelong learners who will be able to live, compete and successfully function in a global society.

Provider	Course Type	Delivery	Course Title	Carnegie Unit	Course Price
Global Geospatial Institute	CTE	F	GIS Entry Level	1	\$1,000.00
Global Geospatial Institute	CTE	O	GIS Entry Level	1	\$1,000.00

## Global Trucking Academy

<https://www.globaltruckingacademy.com/>

Global Trucking Academy, LLC is a premier provider of commercial driver training that leads to high wage high demand jobs in the commercial driving industry. Global Trucking Academy, LLC is located in Marksville and offers the Commercial Driving training course targeting high school students who are about to turn 18 or are 18 years of age or older. The highly structured 9 week program focuses on classroom instruction, practical experiences and over the road driving. Students will also focus on safety as a priority. Students learn valuable skills and earn highly sought after credentials. The school prides itself in the quality of instruction students receive. For students, this means smaller classes, a positive atmosphere, and more personal attention from our instructor. It means the support of our staff dedicated to making sure you get the most out of your educational experience and you are job ready upon completion. Upon completion of the program and successfully obtaining a Class B Commercial Driving License, the individual will be eligible to apply for employment in industries that utilize Class B CDL drivers. Ultimately, it means when you leave Global Trucking Academy you are hireable for high demand jobs such as motorcoach, dumptrucks, delivery, utility truck drivers.

Provider	Course Type	Delivery	Course Title	Carnegie Unit	Course Price

## Louisiana School for Math, Science, and the Arts

[www.online.lsmsa.edu](http://www.online.lsmsa.edu)

LSMSA Virtual School is part of the Louisiana School for Math, Science, and the Arts – or LSMSA. Our courses were formerly offered through the Louisiana Virtual School which joined LSMSA in 2014 as a result of state-wide reorganization. We offer opportunities for students to earn high school credit for core and AP® courses through an online learning platform which students may access 24 hours a day, 7 days a week. Our courses are BESE accredited and taught by LSMSA instructors certified in their subject areas with years of online teaching experience. Courses provide a variety of activities and assessments with a weekly schedule for coursework completion designed to ensure the student completes all required coursework by the end of the course term, whether the course is semester-long or full year.

## MasteryPrep

[masteryprep.com](http://masteryprep.com)

MasteryPrep, formerly ACT Mastery, is the #1 ACT® preparation program for Louisiana students. Developed by Louisiana native Craig Gehring, the expert who made perfect scores on both the ACT® and the SAT®, ACT Mastery is the proven ACT® prep program trusted by Louisiana teachers, principals, and parents alike. The ACT Mastery program can help your child become eligible for TOPS and other important college scholarships, and is four times more effective than the national test prep average. ACT Mastery offers prep for the ACT® as well as WorkKeys.

## My Virtual Academy

[www.myvirtualacademy.com](http://www.myvirtualacademy.com)

Take part in the My Virtual Academy Advantage! Our instructors have extensive online teaching experience and pride themselves on helping each student they teach succeed. My Virtual Academy teachers contact each student multiple times every week to ensure that students are engaged and mastering key skills. Our frequent contact with the student each week ensures that MVA can easily determine where the student is struggling, so we can turn student mistakes into learning and accomplishment. MVA employs Edmentum as our software program. The program identifies the strengths of every student. We also include supplemental activities to allow our students to apply the concepts they are learning in an individualized way.

## National Education Equity Lab

The National Education Equity Lab is a nonprofit working with Harvard University, the Common Application, and other colleges and universities to create a new pathway for low-income and historically underserved students to advance and demonstrate college and career readiness. We deliver online college credit-bearing courses from top colleges and universities into teacher-led high school classrooms across the nation. Students earn widely-transferable college credits, at no cost to them — making college more affordable and accessible. All courses provide links to careers so that students can explore career opportunities while earning college credit. Title 1 high schools have the opportunity to have all participating students be matched one-on-one with a Common Application College Coach to support students with the college and financial aid processes. Please contact Ali (Ali@EdEquityLab.org) for more information.

## New Orleans Career Center (NOCC)

<https://nolacc.org/>

New Orleans Career Center (NOCC) is New Orleans' hub for high quality technical education, training skilled and prepared graduates for a lifetime of opportunities, advancement, and success. NOCC provides high quality, half day career and technical training to juniors and seniors from partner public high schools in Orleans Parish. Student trainees attend half days for coursework in high wage, high growth career pathways aligned to technical and soft skills and workplace readiness in our region. Trainees gain relevant work experience, and earn employer-valued credentials. In some courses, trainees also earn concurrent college credit.

## New Orleans Technical Education Provider (NOTEP)

Our vision is to provide high quality technical education courses to develop hard-working students into college and career ready graduates. In our courses, we aim to provide exposure to the craft industry while dually developing interested students into skilled craftsmen and future industry leaders. Programs of study are based on industry need and courses are designed so that students can earn industry credentials over the course of one calendar year.

## NOVAC

[www.novacvideo.org/borndigital](http://www.novacvideo.org/borndigital)

The Gulf South's oldest media arts non-profit, NOVAC's mission remains the cultivation of independent voices and visions. The Born Digital Youth Media Program at NOVAC develops young future creatives, from diverse backgrounds in South Louisiana who can use digital media training opportunities to develop high wage and low barrier entry to careers. We offer digital media courses and career and technical education to high school students throughout southeast Louisiana. Our curriculum combines technical education with workplace scenarios and real design and video work in the community. Our courses strive to not only prepare students to earn a basic industry-based credential in one or more Adobe Software program, but also to support projects and networking opportunities to build a career in the industry.

## OneGoal

<https://www.onegoalgraduation.org/>

Beginning in the fall of 2020, OneGoal will launch its three year model in Louisiana! OneGoal seeks parishes and charter systems investing in creating a systems-level answer to the college and career readiness challenges our communities face. The model begins junior year as a course that is embedded into the master schedule as an elective. We use a teacher that already exists in the high school to teach our course. The courses for both junior and senior year include curriculum and professional learning that consists of: (1) student identification of their own vision of success through self-discovery, (2) in-depth test preparation for the ACT/SAT, and (3) college and career exploration resulting in increased enrollment in market relevant postsecondary programs/institutions. After high school graduation, OneGoal continues to support students through the first year of postsecondary via virtual mentorship and partnerships.

How does OneGoal align with Louisiana's Graduation Plans:

- OneGoal may count as an elective on a Jump Start Career Diploma
- OneGoal is a universal course code and a designated career readiness course on the JumpStart pathway
- OneGoal may count as one of the three electives on the University TOPS Diploma

Provider	Course Type	Delivery	Course Title	Carnegie Unit	Course Price

## Operation Spark

[operationspark.org](http://operationspark.org)

Operation Spark is a non-profit coding school on a mission to increase access to high-wage careers in software development for young people across Louisiana. Our courses offer a deep dive into the fundamentals of Javascript, the most in-demand language in the software industry today. Louisiana currently has thousands of open positions in the software industry and the need is only growing in years to come. Headquartered in New Orleans, Operation Spark offers its innovative curriculum to high school students across the state through face-to-face and online courses.

## Parkview Education

<https://parkvieweducation.com/>

Parkview Education has had the pleasure of assisting the Louisiana Department of Education with conceptualizing and authoring the Virtual Workplace Experience II (VWE II) curriculum.

This online course offers students:

- An exploration of high-wage, high-demand industry sectors across Louisiana
- Experience with research, collaboration, and written and oral communication skills
- The chance to develop project-management skills by practicing autonomous as well as guided independent learning

With extensive experience in curriculum and administration, we know that often the biggest obstacle to successful implementation of new programs is proper support. This online option puts the responsibility in our hands, taking any additional burden off your district, school and staff.

Provider	Course Type	Delivery	Course Title	Carnegie Unit	Course Price
Parkview Education	CTE	O	Virtual Workplace Experience II	1	\$450.00

## Pelican Chapter ABC

[www.abcpelican.org](http://www.abcpelican.org)

Pelican Chapter ABC is a premier provider of construction training that results in high wage, high demand jobs in industrial construction. Students learn valuable skills and earn highly sought after credentials. Pelican ABC offers daytime dual enrollment programs to juniors and seniors and is teaching classes in welding, millwright, pipefitting and electrical. Students attend classes at one of the Pelican Chapter Training Centers or local high school satellites while taking the core classes at their home schools.

## Pelican Virtual School

[pelicanvirtuelschool.net](http://pelicanvirtuelschool.net)

Pelican Virtual School is housed in Denham Springs LA. What separates us from other providers is that we specialize in teaching Spanish I and Spanish II, and that our teachers do not hide behind the screens. In fact they visit our students at their home schools periodically. With more than a decade of experience teaching Spanish, both online and in conventional classroom settings, our team of native Spanish speakers has developed effective and engaging online methodologies for acquiring Spanish language proficiency. An important aspect of our Spanish courses is that they have been custom designed by Louisiana teachers for Louisiana students. A wide variety of multimedia activities, including games, audio and video components, are integrated throughout our courses to reinforce the four basic language skills: listening, reading, writing and speaking. Since we are based in Denham Springs, a member of our team will be available to visit your school when necessary, addressing any Core or technical matters in an effective and timely fashion.

## Pinnacle Learning Solutions

[www.pinnlearn.com](http://www.pinnlearn.com)

Pinnacle Learning Solutions offers students the opportunity to learn virtually from award-winning Louisiana teachers. We are a small company that is founded, owned, and operated by a husband and wife team that loves what we do—educating students. Our goal is to make learning a positive experience for every student and provide ample opportunities for struggling students to get extra help along the way. We offer a narrow selection of courses that allow us to give specialized attention and innovative learning opportunities to motivate our students. We use relationships to push students to reach their personal best. Our level of communication and service are second to none! At Pinnacle Learning, we put students first! College and Career Readiness Skills are embedded in each unit and courses are available 24 hours a day, 7 days a week. Therefore, courses can be taken during the regular school day, or in addition to it. Students are able to work at their own pace.

## SLT Technology

CompTIA IT Fundamentals (ITF+) is an introduction to basic IT concepts that helps a student strengthen their knowledge and skillset. It also helps organizations prepare non-technical persons for digital transformation. CompTIA ITF+ establishes an IT education framework for students in middle school and high school. ITF+ is the only pre-career certification that helps students or career changers determine if they have a competency for information technology and if it is the right career path for them. ITF+ is the only single certification that covers all areas of IT foundations making it ideal for non-technical career seekers.

## South Arkansas Community College

[www.southark.edu](http://www.southark.edu)

South Arkansas Community College (SouthArk) is an open enrollment public two-year college located in El Dorado, Arkansas and accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools (HLC-NCA). SouthArk offers 19 associate degrees and more than 40 certificates in health sciences, career technical education, liberal arts, and business and technology. For students who are planning to transfer to a four-year college, SouthArk offers the Associate of Arts (AA), Associate of Science (AS), the ASE (Associate of Science in Education) and several Associate of Applied Science (AAS) degrees in many discipline areas. SouthArk's west campus is home to programs for general education, business and technology, and health care. SouthArk's east campus offers career technical programs for high school and post-secondary students.

## Spark Mindset, Inc.

<https://www.sparkmindset.com/>

The average cybersecurity analyst makes \$78,000 Annually. Spark Mindset offers educational programs to give kids - particularly kids of color and girls - opportunities to learn and earn credentials in the field of cybersecurity. Beyond enriching in-school and out-of-school time through game-based learning, Spark Mindset creates opportunities for economic mobility by increasing the number of kids of color and girls who find their way in a predominantly white, rapidly growing cybersecurity field. Cyber Space Academy is a two-year program that prepares low-income high school students for cybersecurity careers. It can be a distance learning experience that uses both asynchronous and synchronous learning or face-to-face that meets students where they learn by offering a gamified experience that prepares students for CompTIA Network + and CompTIA Security +. Our modules are fun and engaging and build your child's confidence as they reach new milestones. It's this combination of challenge and reward that improves retention long term.

## St. James Parish Schools

[www.stjames.k12.la.us/Cores/virtual\\_academy](http://www.stjames.k12.la.us/Cores/virtual_academy)

Inspiring hope and purpose is the vision of St. James Parish Schools. Children succeed when they are inspired by a purpose that engages their inner strength to overcome obstacles and reach their full potential. Through the Supplemental Course Academy, we will share its vision of hope and purpose with students throughout the state of Louisiana. We are offering comprehensive programs in two areas of concentration: The Career and Technical Center (CTC) and the Virtual Academy. The CTC offers programs in cosmetology, industrial maintenance, allied health, ProStart®, and agri-science/construction technology. Students can earn industry-based certifications (IBCs) that employers look for when they hire. Our CTC courses also offer dual enrollment opportunities that help students complete post-secondary degrees. The Virtual Academy offers students throughout Louisiana an on-line learning environment that is customized, connected, and complete. St. James Parish is an innovator that delivers quality education programs. St. James Parish offers programs –developed in conjunction with educators, business leaders, parents, students, and community members – that empower students to reach their full potential.

## University of Holy Cross

Located on the West Bank of the Mississippi River minutes from downtown New Orleans, the University of Holy Cross provides one of the South's most unique educational experiences.

The University was founded in 1916 as Our Lady of Holy Cross College, a Ministry of the Marianites of Holy Cross, and was created to educate and prepare teachers for work in the many schools the Marianites were opening across South Louisiana. The University's continued unwavering connection to the beliefs of the Marianite Sisters and its roots in educating those who would eventually teach others now includes outstanding programs in business, counseling, education, health sciences, nursing, and the liberal arts.

For our students, this means smaller classes, a faith-based atmosphere, and more personal attention from a generous, responsive team of professionals. It means collaborating in an exciting, entrepreneurial environment where the focus is always excellence. It means the support of a compassionate, caring faculty and staff all dedicated to making sure you get the most out of your educational experience. Ultimately, it means you leave the University of Holy Cross prepared for life.

## Upbeat Academy Foundation

Upbeat Academy Foundation inspires and empowers young people through a modern approach to music education. Utilizing an original curriculum that provides access to the technology and tools used the production and performance of hip-hop, rap, R&B, dance music, and other popular genres, Upbeat Academy Foundation strives to nurture the next generation of musical talent and entrepreneurs by fostering creativity and collaboration both in the classroom and in the community. Headquartered in New Orleans, Upbeat Academy Foundation offers Music and Technology courses to high school students across Louisiana through in-person and online courses. Our courses strive to not only prepare students on how to create their own music but how to build a career in the music industry.

## Upper Iowa University

<https://uiu.edu/>

Founded in 1857, Upper Iowa University is one of the oldest institutions of higher education west of the Mississippi River. UIU is a regionally credited university with over 21 locations across the United States, including one location overseas. With more than twenty years of experience in online learning, Upper Iowa University provides opportunities to fit any student's schedule and needs. Courses are online, hybrid, or taught face-to-face at a local high school. Highly qualified educators that are devoted to providing a quality education teach all of our courses. "Education Built for Life."

## Youth Challenge Program (YCP)

<https://langycp.com/>

The Youth Challenge Program is a multi-phased alternative education program, targeting high school students between the ages of 16 and 18. The highly structured 5 ½ month Residential Phase (cycle) focuses on continuing education through Course Choice, Credit Recovery, HiSET (GED) and Career Readiness. The Course Choice and Credit Recovery track allows high school students to dual-enroll into the Program to recover and/or earn high school credits (Carnegie Units) providing students an opportunity to "catch-up" and graduate with their high school cohort. The HiSET (GED) track provides students an opportunity to earn a high school equivalency diploma that may have fallen too far behind in high school. The program's eight core components are: Core Excellence, Physical Fitness, Job Skills, Service to Community, Health and Hygiene, Responsible Citizenship, Leadership/Followership, and Life Coping Skills. The Residential Phase is followed by a 12 month Post-Residential mentoring phase. During this phase, mentors and program Case Managers provide support to the students as they work toward their goals of continued education, employment, or entering the military.

## Youth Educational Services (YES!)

[www.youthedservices.org](http://www.youthedservices.org)

At Youth Educational Services (YES!), Inc. our vision is to help students achieve Core success and gain confidence in their abilities through the delivery of high-quality content. We believe that all students can and will learn when they are provided with individualized instruction tailored to their needs. YES! has a proven track record of helping students improve their performance in classes by filling gaps in student learning and building on their established foundation. We also boast an impressive track record of raising ACT scores by an average of 3 points. Whether students are interested in improving their grades in class or earning a 36 on the ACT, they can begin their journey to Core success with YES!
