# POSTSECONDARY ACCESS IN LOUISIANA

The nation is experiencing fewer students enrolling in post-secondary education, and Louisiana is no different, but the state still managed to close out with 74% of seniors submitting the Free Application for Federal Student Aid (FAFSA). While Louisiana has made great progress, there still remain gaps in access to and completing college by socio-economic status, even amongst higher-achieving economically disadvantaged students. Some students who are eligible for aid still fail to submit FAFSA. FAFSA submission rates can be raised by providing education and personal assistance to students. Louisiana has created a policy around FAFSA submission and increased awareness about the importance of applying for financial aid to further postsecondary education.

## POSTSECONDARY COSTS

One of the most prominent barriers to postsecondary education or training in Louisiana is cost. Too few students and families have the money to fund a four-year degree or industry training program without assistance.

## POSTSECONDARY FUNDING SOURCES

Louisiana students are afforded many state and federal financial aid options such as the Free Application for Federal Student Aid and the Taylor Opportunity Program for Students to help combat the costs of postsecondary education and training.

#### Free Application for Federal Student Aid (FAFSA)

The FAFSA is a form prepared annually by current and prospective postsecondary students to determine their eligibility for student financial aid such as Pell grants, work study programs, and federal student loans. Students complete the FAFSA during their senior year of high school and again each year they are in a postsecondary institution to continue qualifying for aid. Early completion is encouraged since students may qualify for additional state or institutional aid.

#### Taylor Opportunity Program for Students (TOPS)

TOPS is a scholarship program for Louisiana residents who attend any of the following institutions:

- Louisiana public college or university;
- school in the Louisiana Community and Technical College System;
- approved proprietary and cosmetology schools;
- institutions in the Louisiana Association of Independent Colleges and Universities.

TOPS Opportunity, Performance, Honors, and Tech awards are based on a student's coursework, GPA and ACT score.

# LOUISIANA'S PLAN FOR INCREASING POSTSECONDARY ACCESS

By not completing the FAFSA, Louisiana students forego millions each year in federal grants, state opportunities, and other postsecondary funding. Additionally, students who are awarded TOPS or other state scholarships still seek additional assistance with living expenses, textbooks, and academic fees.

#### IMPROVING STATE POLICY

These student financial aid gaps call for a comprehensive and sustainable approach to financial aid planning that will benefit all students equitably and preserve the attainment of postsecondary education for future generations.

In December of 2015 the Board of Elementary and Secondary Education (BESE) approved a policy regarding postsecondary planning for graduating public high school seniors. The policy sought to increase student access to state and federal financial aid by requiring graduating seniors to either

- complete the Taylor Opportunity Program for Students (TOPS) application or the Free Application for Federal Student Aid (FAFSA);
- declare a hardship; or
- submit a waiver to the local school system.

These polices were made effective with the start of the 2017-2018 school year and applied to the Class of 2018.

## IMPROVING STATEWIDE FINANCIAL AID PLANNING

In order to provide even greater access to financial aid for Louisiana's students, the Louisiana Department of Education (LDOE) formed the Financial Aid Working Group to evaluate the state's financial aid application completion rates, identify deficiencies and solutions for communities with low completion rates, and provide a comprehensive list of recommendations to the LDOE on how to improve financial aid completion rates statewide. The Financial Aid working group continues to meet quarterly to analyze current trends and best practices in financial aid planning and create a network of resources for students around the state.

### Specifically, the working group was charged with three tasks:

- Develop a state action plan to track school-level financial aid form completion and make recommendations to the Department regarding changes in policy or funding opportunities deemed necessary to ensure that the new policy is implemented with fidelity;
- Support the Department in the ongoing identification of services and programs available for schools and families; and
- Assist in the development of partnerships and alliances with financial aid-related support programs, services, and stakeholders.

The Financial Aid Working Group will work through the 2022-2023 school year to increase FAFSA completion during the pandemic and encourage students to move on to postsecondary education, overcoming perceived barriers.

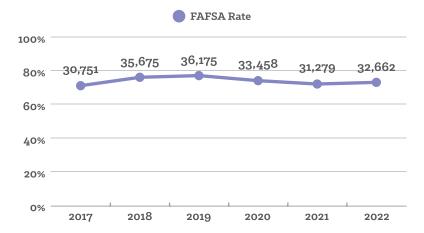

Additionally, the working group recommended that the LDOE publish an annual report, *The State of Financial Aid in Louisiana*, to report financial aid completion rates amongst high school seniors, and highlight those school systems and schools with the highest submission rates.

### IMPROVING STATEWIDE FAFSA APPLICATION RATES!

#### STATE/NATIONAL COMPARISONS

The National college Attainment Network (NCAN) reports that nationally FAFSA submission was down approximately 4 percent due to factors related to the pandemic. There was a 4 percent decline at Title I schools which serve predominately economically disadvantaged youth. Despite these obstacles, Louisiana had a 74 percent completion rate for all schools, public, and non-public, at the June 30, 2021 deadline, coming in second in the nation.

#### FAFSA SUBMISSION RATES FOR LOUISIANA PUBLIC SCHOOLS

#### STATE SUBMISSION DATA ANALYSIS

The state additionally analyses submission data by subgroup. Below are the results from the three years of policy implementation.

Identifier	June 30, 2020	June 30, 2021	June 30, 2022
All Public School Students	75%	71%	74%
Females	82%	87%	87%
Males	69%	76%	77%
TOPS University Diploma	84%	86%	89%
Jump Start Career Diploma	55%	63%	65%
Economically Disadvantaged	71%	78%	80%
Non-Economically Disadvantaged	82%	78%	87%
Special Education	53%	56%	76%
English Language Learners	34%	37%	44%
Homeless	76%	78%	81%
White	78%	83%	83%
Black	75%	83%	84%
Hispanic	57%	63%	69%
American Indian	72%	79%	81%
Asian	82%	90%	91%
Native Hawaii	78%	82%	83%
Multi Race	73%	82%	83%

#### NATIONAL COMPARISONS

The National College Access Network (NCAN) published the national completion rates and rank of all states by percent of growth since the previous year each week during the FAFSA cycle from October until the June 30, 2022 priority deadline. The data cut off point is the June 30 deadline, but many students went on to complete a FAFSA after this date, which is not reflected in this report. Since the implementation of the policy, Louisiana has finished at number one in the nation for FAFSA completions with the exception of 2020 where we were number two due to COVID waivers of policy. NCAN reported that 75 percent of students in Louisiana completed the FAFSA by the June 30 priority deadline.<sup>2</sup>

<sup>1</sup> The policy requiring students to complete a FAFSA or have a waiver is satisfied by having a legitimate submission. The vast majority of FAFSA submissions are ruled complete; however, there are some submissions with errors that students do not go back in to correct as their plans for higher education may have changed.

# APPENDIX: FAFSA DATA COLLECTION

Currently the only source for public school only FAFSA data besides self-reporting is on the USDOE website. Weekly/bi-weekly USDOE data can be found at <a href="https://studentaid.ed.gov/sa/about/data-center/student/application-volume/fafsa-completion-high-school">https://studentaid.ed.gov/sa/about/data-center/student/application-volume/fafsa-completion-high-school</a>.

While USDOE data is informative, it does have some limitations. Some of the limitations of USDOE data include

- Students can submit multiple applications using different identifying information
- Students who are overage fall within the current definition of a senior (beginning in January, first-time submitters up to 19 years old were present in data)
- School can have a change in the official count of seniors during the current school year
- School is listed more than one time in the data with name variations
- School has less than 10 seniors and are therefore not included in reporting
- School has 5 or fewer applications on file and not included in school reporting but included in district reporting

Beginning with the 2017-2018 school year, USDOE submitted applications were matched with official state data in the Student Transcript System to indicate that students have met graduation requirements.

The LDOE uses USDOE data to calculate FAFSA data for Louisiana public schools. The data included in this report reflects the number of FAFSAs submitted among first-time filing applicants at the cutoff date who will have received their high school diploma by the start of the school year for which they are applying for aid.

The LDOE data uses USDOE reported numbers and school system self reporting and calculates based on the number of actual graduates in the Student Transcript System (STS). This data is reported by numbers submitted, divided by the number of graduates. Final district and school year percentages are calculated on the state/national priority deadline for FAFSA submission as of June 30. The Department communicates data to the field through School System Support teams each week.

FAFSA data on public and nonpublic school completions can be found at the National College Access Network's (NCAN) Form Your Future FAFSA Tracker (https://formyourfuture.org/fafsa-tracker/).
