**Sample Technical Specification Components:**

Device (e.g., Desktop, Laptop, Tablet)	Carolina Science Online (CSO) is delivered as a web service that is device agnostic.	
Operating System (Windows/Mac)	Carolina Science Online (CSO) is a web service that functions within any industry standard browser on all platforms and operating systems.	
Memory (RAM) (e.g., 4GB)	CSO is delivered as a web service via industry standard browser. Minimums RAM requirements (e.g. Chrome 128MB) are easily eclipsed by devices available in today's market (e.g. Standard Chromebook 2GB).	
Hard Drive (e.g., 160GB)	CSO is delivered as a web service and does not require local storage to operate.	
Software Requirements (e.g., Office, Adobe, GameMaker etc....)	CSO is delivered as a web service. Content is accessed via industry standard browser and does not require proprietary plugins, or third-party software.	
Hardware Requirement (Laptop)	Carolina Science Online (CSO) is device agnostic. Content operates in an industry standard browser but is not optimized for mobile/smartphone devices.	
Internet Connection (e.g., 1 Mbps, broadband)	The largest assets (or most bandwidth intensive) are video files for which we recommend a minimum bandwidth, per user session, of 0.1MB/second.	
Web Browser Supported (Google Chrome, Safari, Internet Explorer)	Carolina Science Online (CSO) is a web service that functions within any industry standard browser on all platforms and operating systems.	
Antivirus Software	CSO does not require antivirus software, however, using said software is a recommended practice for all devices exposed to network traffic.	
Accessories (Headsets, speakers, CD-RW/DVD Drive, Wireless or Ethernet Network...)	Carolina Science Online (CSO) is a web service and requires internet access. We recommend a minimum bandwidth, per user session, of 0.1MB/second.
