

In order to gain access to the new Advanced Placement instructional resources, there are three necessary steps that schools must complete: activate the Advanced Placement registering and ordering system (APRO), create AP sections, and provide students with join codes to individual classroom sections.

To better support schools in completing these steps, the LDOE will host six recurring webinars throughout the month of October that are designed to walk participants through the process of completing the AP Classroom activation process. Each webinar will last approximately 20 minutes with time for Q & A. Each webinar will be the same so there isn't a need to attend each one unless you have additional questions.

Webinar Date and Time: Oct. 9 at 11:30 a.m.
