When you are getting ready to meet a customer or potential customer, the image you present is very important even before you have a chance to say a word or shake a hand. That image is the first thing your customers or potential customers are going to notice about you.

Fill out the following table while watching the “Dress for Success” Nepris video.

Make a list of things you should NOT do/ wear when preparing for an interview or to meet a customer .	Make a list of things you SHOULD do/ wear when preparing for an interview or to meet a customer .

Tip:

Workplace attire differs from place to place, but one thing is always certain. When interviewing for a new position, you always want to don your best attire, no matter what the location.

Bonus Tip:

If you have questions about what you should wear, check out similar environments and observe what people are wearing in those locations, or ask the individual you interview with! They’ll guide you in the right direction.
