Performance Task 2: Parent and Community Night

Student Resource

Name:  
Date:  
Class/Section:  

Performance Task Description:
Transition planning is necessary for students to continue their education and pursue meaningful employment. Associating personal and career goals with coursework helps high school students stay on track for graduation and future job placement. Further, planning educational goals beyond high school will help them enter postsecondary education programs that can expand their career choices. As such, you have been asked to evaluate your secondary education options and take steps to earn early college credit and industry credentials that can be applied to your postsecondary education goals and career choices. In this performance task you will research the costs associated with registered apprenticeship programs, military service, technical and community colleges, and four-year universities. You will also explore options for financial aid, which can include eligible grants, scholarships, and loans available to offset the costs of postsecondary education. You will create a multi-media presentation that outlines the education and career path. As a class, you will work together to organize a parent and community event to showcase the possible pathways from high school, the various types of postsecondary education, and connections between secondary and postsecondary education and a meaningful career.

Goals:
- Link secondary and postsecondary education and skill development with desired career choices
- Understand how to navigate and access the secondary education system and postsecondary education system to pursue a desired career
- Identify which secondary programs and resources are available and match with your career goals
- Develop a high school graduation plan to achieve postsecondary and career goals
- Identify which available postsecondary programs and resources match with your career goals
- Understand the total cost to attend postsecondary education programs and the labor market value of degree and certificate programs
- Identify the differences are between grants, scholarships, loans, and other forms of financial aid when seeking postsecondary education
- Apply for resources that can help to offset the cost of postsecondary education
- Seek support from parents/guardians to make secondary education and postsecondary education choices related to personal and career goals

Essential Questions:
- How do my personal and career goals influence my secondary and postsecondary education choices?
- What type of secondary education path will help me to get a head start on my postsecondary education goals?
- What type of postsecondary education path do I need for my career choice?
- What secondary and postsecondary institutions offer the type of education I am interested in pursuing?
- What barriers exist to pursuing the secondary education path of my choice?
- What barriers exist to attending the postsecondary institution of my choice?
- How can I link my secondary and postsecondary education paths to eliminate barriers and help me to pursue my desired career?
