

INTERVENTION CONTENT LEADER

BACKGROUND

Every day, all students in Louisiana should have the opportunity to read and understand complex texts, express their understanding through speaking and writing, and solve complex problems. To ensure these opportunities are available to all students, including diverse learners, educators must:

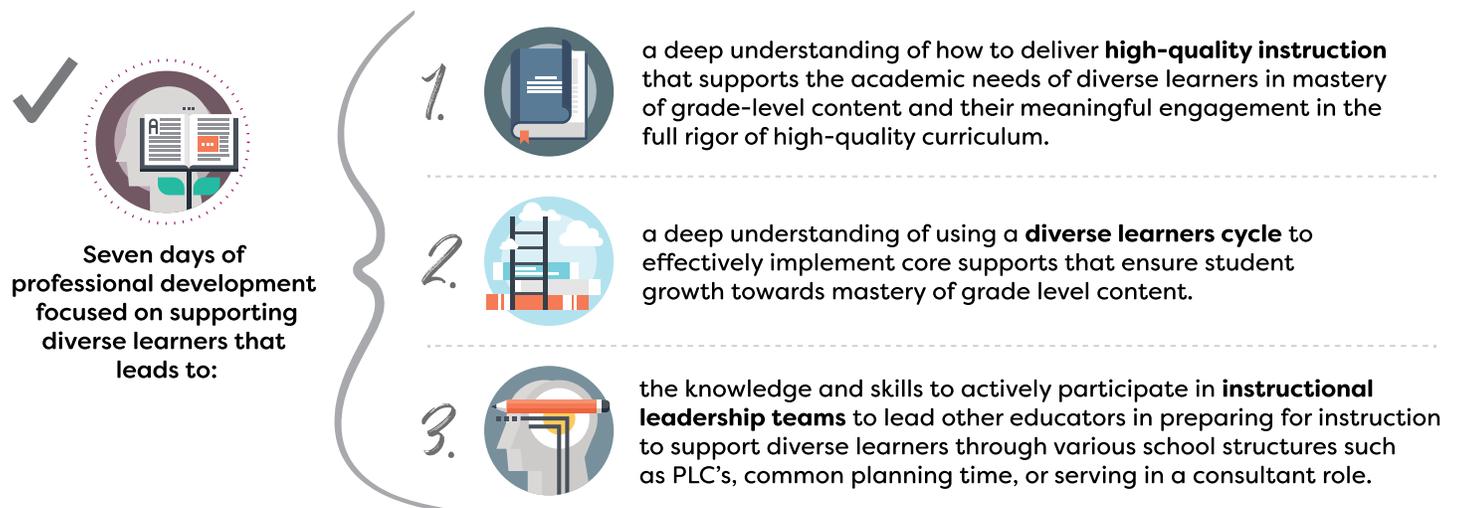

- Be prepared to deliver high-quality instruction that supports students in mastering the full level of rigor in grade-level standards using high-quality curriculum every day.
- Engage in the **diverse learners cycle** to employ core supports* that ensure growth towards mastery of grade-level content and standards.

**Core supports are strategies or materials directly connected to high-quality curriculum to support diverse learners, including students who learn in a different way or at a different pace.*

WHAT IS THE LOUISIANA INTERVENTION CONTENT LEADER INITIATIVE?

Intervention Content Leader is a professional development initiative designed to build upon the Content Leader initiatives to deepen educator expertise in supporting all students, including diverse learners, in mastering grade-level content in ELA or Math.

INTERVENTION CONTENT LEADERS receive:

INTERVENTION CONTENT LEADERS earn:

- ✓  Upon successful completion of the Intervention Content Leader distinction assessment series participants earn the Content Leader ancillary certificate that contributes towards school leader licensure.
