

LEAP 360

WHAT IS LEAP 360?

LEAP 360 is an optional assessment system aligned to the Louisiana Student Standards and LEAP 2025 assessments that provides educators with a complete picture of student learning throughout the school year. LEAP 360 also supports school systems and schools in significantly reducing time spent on assessments and should be used to replace previous school system benchmark assessments.

- **Diagnostic assessments:** determine student readiness for new course work and assist teachers in setting meaningful and ambitious goals
- **Interim assessments:** evaluate student learning and monitor progress toward year-end goals and allow teachers to target and adjust instruction throughout the year
- **K-2 formative assessments:** provide quality tasks focused on critical student skills in ELA and math
- **EAGLE:** allows teachers to integrate high-quality questions into day-to-day classroom experiences and curricula

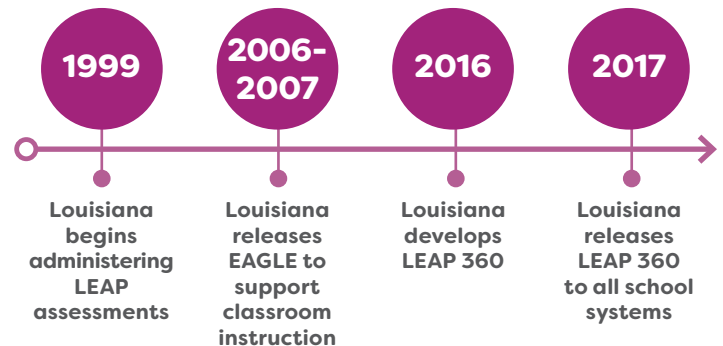

WHAT IMPACT HAS LEAP 360 HAD IN LOUISIANA?

Each year, the results from LEAP 2025 summative assessments provide Louisiana educators, students, and parents with important information about what students did and did not learn during the year. However, the results have limited instructional implications. High quality diagnostic and interim assessments are more useful tools for educators to appropriately plan for and adjust instruction to meet all students' needs.

The positive impacts of LEAP 360 include:

- Teachers have a more complete picture of student performance, and therefore able to adjust instruction as needed to meet the needs of every student.
- Principals identify areas of strengths and weaknesses in order to make smart instructional decisions to improve student learning.
- School systems will reduce overall local testing while helping to monitor progress toward school system goals.

"LEAP 360 is a powerful tool our district is leveraging to achieve our ultimate goal of creating and sustaining a cohesive system between assessments, professional learning and curricula implementation that prepares our students for college and career success." - *Rebecca Freeland, Richland Parish Talent Pipeline Lead*

WHAT'S NEXT FOR LEAP 360?

Over the coming months, LEAP 360 will continue to improve based on feedback from educators and students from around the state. Additional Interim forms will be available for administration, and new summary reports will be available. Also, additional items will be added to EAGLE to provide teachers with additional high-quality items that can be woven into day-to-day classroom instruction.
