News for Early Childhood Educators Special Edition

Dear Colleagues,

I am writing today regarding an issue requiring immediate attention.

As you likely know, there have yet to be any reported cases of the Coronavirus in Louisiana. At the same time, it is important for child care providers and school system leaders to be prepared. For information regarding the Coronavirus itself, you may wish to consult the [Louisiana Department of Health](#) website, which has regularly updated information about the disease, prevention, and any occurrences in Louisiana. The Department of Education has created a brief [Frequently Asked Questions](#) document that is specific to the concerns of child care providers and that will be regularly updated as the Coronavirus impact becomes better known. School systems should refer to the [K-12 Frequently Asked Questions](#) document for specific guidance.

As always, thank you for all you do for our children,

John
