

Important News for **NONPUBLIC SCHOOLS**

April 8, 2021

Dear Colleagues,

Last week we received more good news as a result of your efforts to educate through this pandemic. LSU's Reilly Center for Media & Public Affairs [released the second in a series of five reports](#) from the 2021 Louisiana Survey. This annual survey tracks public sentiment about state government services, including our education system. This report found that 77 percent of families are satisfied with the instruction provided by their child's school during the pandemic. Good job! Families are our partners, and it's encouraging to see more data showing that they value the lengths teachers and leaders are going to provide a quality education.

Just over half of families felt that their children learned less over the past year than they would have in a normal year. Our educators have done hero's work during the pandemic, but we've known learning recovery would be needed since the beginning of this unprecedented event. School systems across the state are meeting this challenge with creative solutions like our [Accelerate tutoring initiative](#) or by rethinking how [summer learning programs](#) can be used to lift all students. Early last week we also launched [Achieve! and Believe!](#), resource libraries to support systems and early childhood centers as they utilize pandemic relief funds.

Thank you to our students, educators, leaders and families for working together with grace and flexibility throughout this pandemic. Together, we are meeting the challenge of the moment and stand ready to move our state forward.

Dr. Cade Brumley
State Superintendent of Education

School System Financial Services

Maintenance of Effort (MOE) Fiscal Requirements

Please share with business managers and financial officials.

Meeting yearly Maintenance of Effort (MOE) requirements are part of the business process to confirm compliance and determine eligibility of federal grant funds for ESSA and IDEA grants. ED requires an annual review that determines if each LEA: 1) has not decreased spending of general fund dollars, and 2) is budgeting expenditures to meet the MOE standards.

There are three MOE measurements submitted in the eGMS system:

- 2020 IDEA MOE Confirmation (Compliance) deadline for submission is **May 14**.
- 2022 ESSA MOE Verification updates are in progress and will be available in the near future.
- 2022 IDEA MOE Verification (Eligibility) updates are in progress and will be available in the near future.

COVID Relief Funds and MOE

Although school systems have received relief funds as a result of COVID-19, these funds do not affect the Maintenance of Effort requirements at the LEA level. LEAs are required to continue spending at levels to continue to meet all MOE requirements in accordance with previous federal regulations. Federal requirements have changed at the State level only.

MOE Assistance

The [MOE Quick Reference Guide](#) is available to assist those new to the MOE submission process. A [Local Only Funds Calculator](#) is available to assist in completing the Local Only Funds section of the IDEA MOEs.

Those experiencing delays with MOE that are COVID-19 related or those with questions regarding the MOE review process are encouraged to contact nakia.jason@la.gov. For technical inquiries or support, please contact jason.berard@la.gov.

Emergency Broadband Benefit for Families

The Federal Communications Commission (FCC) has launched an [Emergency Broadband Benefit Program](#) to assist eligible households or school systems in paying for home internet services during the pandemic. This program is set to launch in mid to late April.

The Emergency Broadband Benefit will provide a single discount of up to \$50 per month toward broadband service being provided to eligible households and up to \$75 per month for households on Tribal lands. Eligible households can also receive a one-time discount of up to \$100 to purchase a laptop, desktop computer, or tablet from participating providers if they contribute \$10-\$50 toward the purchase price. In cases where the school system is purchasing home internet services for an eligible student, the school system can utilize the EBB discount to help defray the cost of service.

Households of students who currently attend a school that participated in the Community Eligibility Program (CEP) in 2019-2020 or 2020-2021 qualify for this discount. Additionally households of students who attend a school that participates in the National School Lunch Program (NSLP) and are receiving free or reduced-price meals also qualify. To assist families in determining if they qualify for the EBB program based on NSLP and CEP participation, the Department will be launching an eligibility and information [document](#) and providing updates as they are released by the FCC.

Please contact edtech@la.gov with questions.
