

Important News for **NONPUBLIC SCHOOLS**

May 6, 2021

Dear Colleagues,

It's National Teacher Appreciation Week. After everything Louisiana educators have endured this year, I think an argument should be made for National Teacher Appreciation Year. Our teachers have done hero's work serving students and families through the pandemic. There was no blueprint for what school should look like. Our teachers showed up, adapted and found a way to be there for kids.

I don't think it's a stretch to say that Louisiana educators are writing history with their actions during this pandemic. Studies will be written on how every state's education system responded to COVID-19 and recovered from its academic and emotional impact on children. I've seen amazing work in our classrooms and learned from the experiences of transformational educators. I'm proud to help write our story alongside Louisiana teachers.

Take time this week to let the educators in your life know they matter. Whether it's words of encouragement, a hand-written note or a teachers' lounge full of sweets, our teachers are valued professionals who deserve our appreciation every day of the year.

Dr. Cade Brumley
State Superintendent of Education

Pandemic EBT Program Kick-off/Data Submission

The Louisiana Department of Children and Family Services (DCFS), in collaboration with the Louisiana Department of Education (LDOE), has received approval to operate the Pandemic EBT (P-EBT) program in response to the COVID-19 related school closures. P-EBT provides food support to help families with children who are learning in a hybrid or virtual mode and were receiving free and reduced-price school meals. To carry out this program, DCFS and the Office of Technology Services (OTS) will be working with school system data managers who must submit the necessary information to qualify both public and private students for the P-EBT benefit. Additional details regarding data sharing agreements, the submission process, deadlines, etc. will be provided on the May Data Managers Monthly Webinar and May System Leaders Webinar.

What's different for this P-EBT?

- P-EBT this year will use direct certification. With direct certification, there is no application process and it does not require any action by the family. DCFS will use the student data provided by the school districts to issue P-EBT benefits.
- Students will receive their P-EBT benefits on a new P-EBT card. A separate P-EBT card will be issued for each eligible student in the household. This means each eligible student in the household will receive a card in the student's name. Previously, one card was issued in the Parent/Guardian's name for all eligible students.
- Benefits are being issued retroactively in installments back to August 2020.
