Summer Pandemic EBT (P-EBT) Applications

Please share with school system leaders, school leaders and families.

On Thursday, July 21, 2022, the State received federal approval of Louisiana's Summer Pandemic EBT (P-EBT) program. Please ensure that eligible families are aware that they must take the following steps by July 29 in preparation for Summer P-EBT.

Parents should

1. Contact the school their child attended in May 2022 for the application; and
2. Submit completed applications to the school by close of business Friday, July 29.

Praxis Core Updates

Please share with human resource directors and system leaders.

On July 14, BESE President Garvey signed a waiver of BESE policy so that teacher preparation providers can enroll and schedule candidates into courses for the fall semester. This eliminates any delay in the impact of Acts [707](#) and [244](#) of the 2022 Regular Legislative Session on enrolling students into teacher preparation programs.

This **does not waive** requirements for initial certification. Additional policy recommendations based on the aforementioned Acts will be brought to BESE for consideration in August.

Last winter, the Teacher Recruitment, Recovery, and Retention Task Force studied the impacts of Praxis Core on the education profession. The Task Force observed that this assessment has been a barrier to entering the workforce for decades, and the current teacher shortage has magnified the need to address this requirement quickly. The task force endorsed a proposal to remove Praxis Core, and legislation was filed to remove this from law.

Acts [707](#) and [244](#) of the 2022 Regular Legislative Session were passed into law, which removes passing an examination that includes English proficiency as a requirement for certification. BESE policy requires ACT or Praxis Core as the measure of English proficiency for both entrance to a teacher preparation program and initial certification. To align with the new law, policy changes will be presented to BESE for approval in August removing Praxis Core from program entrance and certification.

Removing this barrier is a step in the right direction and a part of a comprehensive plan to improve the educator workforce. We appreciate your commitment to this most important work.

Please contact em.cooper@la.gov with questions.

School Improvement Best Practices

Please share with system leaders.

There are [August dates](#) remaining for the 2022 Louisiana School Improvement Best Practices training sessions. [Registration](#) for the virtual training sessions will close two weeks prior to the start date. If schools have not registered to attend the [training sessions](#), it is encouraged to register as soon as possible. The August dates are the last of the 2022 Louisiana School Improvement Best Practices training sessions.

All CIR and UIR-A schools will be required to participate in the Instructional Leadership Team (ILT) Support and Teacher Collaboration Support training sessions, as well as the accompanying online portal and two days of on-site and/or virtual coaching as follow-up support to the training.

- If a CIR or UIR-A school participated in ILT support or Teacher Collaboration support trainings in Summer 2021, then it is required that they complete the “next level” training in that area in Summer 2022.

- If a CIR or UIR-A school did not participate in ILT support and Teacher Collaboration support trainings in Summer 2021, then it is required that they complete the “foundational” training in those areas in Summer 2022.

While all CIR and UIR-A schools are required to participate in the Instructional Leadership Team Support and Teacher Collaboration Support training sessions, all schools in Louisiana can participate in this opportunity to support implementation of these essential practices this summer. Each school can send up to five participants.

To be prepared for the upcoming school year, the toolkit includes a framework for systems in developing a continuous learning plan. Continuous learning should be provided to limit unfinished learning while maintaining access to instructional programming during modified operations.
