

LDOE Weekly Newsletter

August 27, 2019

Dear Colleagues,

Over the course of our years working together, it has been helpful at certain times to come together so that we can discuss complex issues as a group. I'm writing to invite you and colleagues to join me September 26 in Baton Rouge for such a meeting.

At 9:00 a.m. that morning, the Superintendent Advisory Council will have its regularly scheduled meeting at the Claiborne Building to review policy issues in front of BESE. After that meeting, I invite you to join me at a meeting of all superintendents statewide to review two critical issues.

The first discussion will start at 10:00 a.m. and will cover issues of planning for cyber security in school systems. We will be joined by leadership at the state Division of Administration and National Guard in order to discuss essential steps and investments the state and school systems should make to protect education information systems. Your IT directors are welcome to join us for this meeting as well.

The second discussion will start at 11:00 a.m. and will cover the current statewide discussion related to dual enrollment and other early college course options. We will be joined by Dr. Kim Hunter-Reed, commissioner of the Board of Regents, who will update us on the Dual Enrollment Task Force and will join us for a discussion of the intersection of higher education and high schools.

We do these statewide meetings sparingly, as it is a serious commitment of time, especially for those of you with long drives to Baton Rouge. I ask that you join us September 26 because of the critical nature of these issues and the need to collaborate in developing solutions.

As always, thank you for all you do for our children,

John

Reminder: Tips to Completing the New Louisiana School System Contact Form

Please share with personnel directors.

Earlier this month, the Department released the [Louisiana School System Contact Form](#) as a way to streamline the process of collecting contact information for key school system-level supervisors.

Based on feedback from school systems, the Department has updated the [guide](#) for personnel directors to provide definitions for certain roles collected in the form and offers the following tips for completion:

- All contacts should be entered as “new contact” initially. **No contact information from any previous collection process will be carried over into the new form.**
- The new contact form will replace all other processes for collecting contact information for school system supervisors starting October 1.
- If your school or school system is not listed in the form, please email ldoecommunications@la.gov.

All contacts should be entered into the form by September 13. Please email ldoecommunications@la.gov with questions.

Reminder: Cyber Security Update

In order to better prevent future cyberattacks, the Department, in coordination with the Office of Technology Services, will provide a full year of Carbon Black predictive endpoint security software to detect and provide analytics for mitigating and stopping future cyber threats.

A [webinar](#) was held this morning to provide school systems with information on deploying and utilizing this new software. If you missed the webinar, please reach out edtech@la.gov for additional details and support.

Superintendents and Technology Directors are also encouraged to attend a meeting at the Claiborne Building in Baton Rouge on September 26 at 10:00 a.m. for additional support and guidance on how to prevent future attacks.

Reminder: School Support Institutes

School leadership teams play an important role in ensuring teachers plan for and deliver instruction in a way that meets the needs of their students. The Department will host [School Support Institutes \(SSI\)](#) during the 2019-2020 school year to support school leaders in this role.

Each CIR and UIR-A school can bring up to three leadership team members to the School Support Institutes. School system staff are also invited to participate. Participants will choose one of three pathways for the entire training sequence. School teams can choose different pathways for team members to attend or select one pathway to attend together.

The Department recommends attendees include one building-level administrator and two others who support teachers in planning and instruction. School systems are allotted seats based on the number of CIR/UIR-A schools in their system. School systems that have no CIR/UIR-A schools will be allotted two school system-level seats.

The Department will host a [webinar](#) on August 29 at 1:00 p.m. to provide additional information on the SSI registration process and the three pathways available.

Please email all questions related to School Support Institutes to delaina.larocque@la.gov.

Assessment and Accountability

New: Data Certification

Data certification for ACT will close this Friday, August 30 for new submissions. All submissions that are currently in the system will be reviewed, but school systems will not be able to create new submissions.

Data certification for DCAI will not close as planned due to difficulties with SIS. However, please note that school systems should not send requests for changes to 2017-2018 dropout flag as they can no longer be changed. School systems should also not send requests for increased credits. The Department will only update credits based on new information posted to the transcript in STS.

School systems should be working to review and **request changes to the assessment, progress, and EL progress rosters** now. All requests should be submitted to Louisiana Data Review **no later than September 6.**

Any data that are not submitted for review as part of this process cannot be used as grounds for appeal of the official SPS that will be issued later this fall.

Please contact assessment@la.gov for assistance.
