

LDOE Weekly Newsletter

September 8, 2020

Dear Colleagues,

As Louisiana works to recover from Hurricane Laura, the Department is working alongside system and school leaders to aid in the recovery process. I shared [disaster recovery guidance](#) with system leaders across our state Friday afternoon. Whether your schools were directly impacted by Hurricane Laura or your system is home to displaced students, this disaster will be felt by educators across Louisiana.

Our disaster recovery guidance provides information on policy and logistic issues needed immediately to meet acute needs and restore learning environments. At this point, the number of displaced students and educators is unclear and the reopening date for several school systems is unsure.

Last week I visited system leaders in Calcasieu and Jefferson Davis. If a picture is worth 1,000 words, boots on the ground are worth 5,000. This recovery is a marathon, not a sprint. It's made more challenging by the fact that we remain in a global health pandemic. While the recovery presents a new set of challenges during a historically challenging year, I'm confident in our ability to keep pushing forward for our children.

Dr. Cade Brumley
State Superintendent of Education

Strong Start Reopening Office Hours Extended Through September

The Department will continue to offer Strong Start reopening office hours through the month of September. These office hours will be rolled into the [Career and Readiness Office Hours](#) and will be held weekly on **Thursdays at 3 p.m.** Information needed to join this call is included in the [Career and College Readiness Office Hours entry below](#).

For more information, please visit [COVID-19 Resources for Schools](#).

Please contact LDOECOVID19support@la.gov with questions.

2019-2020 P-EBT Benefits

Louisiana is reopening the Pandemic Electronic Benefit Transfer (P-EBT) program for families who did not apply in May and June. Families of children who receive free or reduced-price school meals are eligible to receive financial benefits for meals missed in 2019-2020 when schools closed due to the pandemic. This includes all students attending a [Community Eligibility Provision \(CEP\) school](#).

The [application portal is open](#) until **September 29 at 5 p.m.** A link to P-EBT information and the application portal is available on the [Department's COVID-19 webpage](#). The Department will publicize the eligibility of these benefits. Schools can use [this toolkit](#) for sample messages to share with families.

This new application window is only for eligible families who did not apply in May and June. To receive these benefits, families must complete an application. Without the requested information, the Department of Children and Family Services cannot issue the Electronic Benefit Transfer (EBT) card and provide benefits. Please note that the information families enter in the application must exactly match what is on file in the student information system.

Please contact LDOECOVID19support@la.gov with questions.

Learning Environment and Connectivity Tool for Systems

The Department has developed a tool for systems and schools to easily track student learning environments as well as device and connectivity data. This tool will also help the Department and systems identify where additional student connectivity supports are needed. System leaders received an email from LDOE with system specific access information needed to complete a brief survey.

School systems are encouraged to add current data as soon as possible. This will help ensure access to the system, as well as accuracy of the information, well before initial data is pulled for BESE on September 18.

Data submitted to this survey will automatically populate dashboards for systems, charter schools and nonpublic schools. A link to the dashboard will be added to the "School Reopening Resources" section of the [Strong Start](#) page in the coming weeks and will be communicated via the weekly newsletter. LDOE will pull data on September 18 at 5 p.m. to create an initial report for BESE and other stakeholders. Systems should update their dashboard throughout the school year as new information becomes available. The most current data will appear on the dashboard as soon as it is submitted through the survey.

Please contact kim.nesmith@la.gov with questions.
