

LDOE WEEKLY NEWSLETTER

September 14, 2021

Dear Colleagues,

Last week, I saw firsthand the sheer magnitude of Hurricane Ida's effects when I toured Jefferson, Orleans, Lafourche, and Terrebonne parishes — roofs torn off, hallways flooded, walls collapsed. Many schools have been devastated from the repeated barrage of high winds, torrential rain, and flash floods, resulting in billions of dollars in damages.

I am so proud of the countless hours our school leaders have put in to safeguard their facilities, helping to get students back into the classroom as quickly as possible. Together, we can begin the process of rebuilding impacted schools, ensuring all Louisiana students have the opportunity to realize their full academic potential.

All the best,
Cade

The Department will also offer one-on-one support office hours as requested. That form will be available in the Pandemic Relief Funding and Guidance Library by the end of this week. As a reminder, plans are due by September 30, however, the Department is putting in place a review and support structure to allow school systems the opportunity to revise their plans based on feedback from reviewers.

Please contact ldoe.grantshelpdesk@la.gov with questions and put School System Planning in the subject line.

Assessments, Accountability, and Analytics

LEAP Humanities

- Window 1 and 2 have been adjusted to allow for additional instructional time that was interrupted by Hurricane Ida. The assessment calendar will be updated to reflect the windows shown below:
 - Window 1: October 18-November 5
 - Window 2: January 24-February 11

LEAP 2025

- September 7-October 1: School systems need to indicate their selection for one of two LEAP fall high school administration windows in DRC INSIGHT as part of enrollment verification. School systems may only participate in one window. School systems that do not select a window in DRC INSIGHT will be placed in Window B as shown below. All makeup testing must be completed during the selected window.
 - Window A: November 30-December 17
 - Window B: January 5-24
- October 1-31: School systems will verify grade 3-8 enrollment and indicate their selection of paper-based or computer-based testing for grade 3 in the Enrollment function of DRC INSIGHT. There is no paper-based testing option for grade 4 in spring 2022. Paper tests will remain available in grades other than 3 as a unique accommodation that will require department approval.

ELPS/ELPT

- Students who may be newly identified as English learners should be screened as early as possible.
- As a result of Cambium's system rollover for the 2021-2022 administration, all students have been deleted from TIDE. Students who have been previously tested will have records in **Reporting**. To determine if data is available for a student, users should enter the student's LASID in the search box at the upper right-hand corner of the screen. One of two messages provides users with next steps.
 - **"Student not active"** indicates that the student has data stored in the reporting system. To retrieve the data, enter the student's demographic information into TIDE, then search for the records in Reporting. Users will have access to all prior records for the student.
 - **"TIDE does not have a student with ID #####"** indicates that the student has never been added to TIDE and has not participated in ELPS or ELPT. If documentation indicates that screening is the appropriate action, users will need to enter the student's demographic information into TIDE before administering the screener.

Please contact bridget.harris@la.gov for assistance or additional information.

ACT

- September 13-January 7: Request initial ACT approved accommodations in TAA
- [State Testing FAQs](#) is now available
- -ACT Customer Care
 - Phone – 800-553-6244 ext. 2800 for standard time and ext. 1788 for accommodations and supports
- September 30: ACT MOUs for 2021-2022 are now available in the [Assessment Library](#) and should be completed and returned. School systems that have closed due to the hurricane should contact assessment@la.gov to request additional time.

Please contact patricia.newman@la.gov with questions.

WorkKeys

- The WorkKeys state realms will open for testing on October 6 and remain available through April 29. The assessment calendar will be updated to reflect the dates.
 - The first accommodated testing window is outlined below:
 - Testing Window 1/Initial Testing: October 6-18
 - Testing Window 2/Makeup Testing: November 3-9

Data Certification

- Assessment rosters were released in La Data Review on Friday, September 10. The final date is tentatively set for October 1, but the department is committed to working with districts severely impacted by the hurricane who may need additional time.
 - The virtual field codes are as follows:
 - 1=100% Virtual Learning
 - 2=Half or more, but less than 100%, academic year virtual learning
 - 3=Less than half, but more than 0%, academic virtual learning
 - Blank=100% in person
 - ELPT progress rosters are now posted to La Data Review as downloadable roster files.
 - LEAP progress index rosters will be available within the data certification window and an anticipated date will be communicated to DTCs and accountability contacts as soon as VAM is completed.

NAEP

The National Center for Education Statistics (NCES) will proceed with administration of the mandated mathematics and reading assessments. For 2022, at the state level, the National Assessment of Educational Progress (NAEP) will be administered in mathematics and reading at grades 4 and 8. The NAEP 2022 school sample will represent the 2022 student population while also maximizing overlap with the NAEP 2021 school sample. Maximizing the overlapping school samples between NAEP 2022 and 2021 opens up the possibility of studying student performance, as measured by NAEP, within the unique context provided by the two NAEP studies that were administered in the 2020–2021 school year.

- The NAEP 2022 administration will include three assessment programs:
 - **January 10 to March 18, 2022:** National long-term trend mathematics and reading assessments: age 9
 - **January 24 to March 4, 2022:**
 - State-level mathematics and reading assessments: grades 4 and 8
 - National civics and U.S. history assessments: grade 8
- Superintendents of selected school systems will receive a letter through email in early September.
 - School systems will play an important role by supporting participation.
 - NAEP will continue to adapt to new processes and procedures as the situation with COVID-19 continues to evolve.
 - As in previous years, NAEP representatives will provide significant support to schools by administering the assessment and bringing all necessary materials and equipment, including sanitized tablets, on which students take the assessment.
 - NAEP representatives' top priority is to protect the health and safety of students and school staff.

Acceleration Professional Development

The recent weather event has further disrupted the education of students throughout Louisiana. As school systems continue with instruction, they must address the unfinished learning their students experienced as a result of the pandemic, as well as Hurricane Ida. As part of LDOE's work to provide continuous guidance and support to our educators, the department will continue to offer professional development to school systems as they work to address unfinished learning through acceleration.

All teachers have access to the 2021-2022 [Louisiana Acceleration Series](#) to support their efforts to accelerate learning. The [Louisiana Acceleration Series](#) includes 6 trainings that are designed to help educators target their instruction and coaching on the most effective strategies.

Staffing and Scheduling Initiative

School systems may need to make staffing and scheduling adjustments to accommodate for the unfinished learning that resulted from Hurricane Ida school closures.

The Staffing and Scheduling initiative launched in March provides system and school leaders robust [guidance](#) and implementation support on developing strong staffing and scheduling models aligned to the best practices below. School schedules should look different in the 2021-2022 school year in order to address unfinished learning.

1. High-quality core instruction is the foundation.
2. Effective literacy instruction is central to student success.
3. Students with unfinished learning and diverse learners need extra instructional time to catch up.
4. Both core instruction and acceleration must be provided by content strong staff.
5. Meeting the social, emotional, and behavioral needs of students supports academic achievement.
6. Equity should be at the forefront of all these strategies.

To culminate the second round of [staffing and scheduling supports](#), system and school leaders are encouraged to attend the Staffing and Scheduling Q&A session on September 29, 2021 at 1:00 p.m. Participants may register using this [link](#).

ACT Alignment Study

The School of Education at LSU, in collaboration with the Louisiana Department of Education, will conduct a study to determine the degree of alignment of the ACT assessment with Louisiana's Student Standards in English Language Arts, Mathematics, and Science. A panel of 45 Louisiana educators will be recruited to participate as expert panelists for this study. Panelists should be extremely knowledgeable in one of three content areas: Mathematics, English Language Arts, or Science. Updated Guidance from ED on ESSER Funding: Screening Testing and Vaccinations

On July 6, Secretary Cardona released a [letter](#) which stated that both the COVID-19 vaccination and testing are critical factors in safely reopening schools. Additionally, ED has released two FAQs ([FAQ-11](#), [FAQ-21](#)) about the use of ESSER funding for COVID-19 testing and vaccinations. Based on the released information, ESSER funds may be used to provide COVID-19 testing and vaccination to teachers, eligible students, and school staff. LEAs should consult with State and local health officials to ensure the adequacy of any SEA or LEA COVID-19 testing program and that testing procedures comply with all applicable laws and requirements, including those related to privacy, including the Family Educational Rights and Privacy Act (FERPA) and Protection of Pupil Rights Amendment (PPRA), and the confidentiality of information requirements under Part B and Part C of the Individuals with Disabilities Education Act (IDEA).

Allowable vaccination outreach could include activities to create awareness and build confidence, facilitate clinics, and provide incentives such as paid time off for staff to be vaccinated. In cases where administrative fees are required to obtain a vaccination, funds may be used to offset the cost as long as the cost is reasonable.

Further, funds may be used to provide reasonable incentives to students, consistent with state parent or guardian medical consent laws, and members of their households to get vaccinated against COVID19. Any incentives that an LEA provides with ESSER funds must meet the requirements in 2 CFR Part 200, including the requirement that the amount of the incentive be reasonable and may not violate any other applicable laws or requirements (e.g., incentives may not involve alcohol per 2 CFR § 200.423).

An LEA is allowed to host a drawing in which all vaccinated students are entered to win a prize such as a new tablet, a reasonable cash award, College scholarship money, or new school supplies and books. In addition, LEAs might give each vaccinated student a nominal gift card or any other allowable incentive that is reasonable in size and scope and likely to lead to an increase in the rate of vaccinations. State and local health departments will provide technical assistance to LEAs and schools in establishing COVID-19 testing programs.

For more information visit the CDC website at www.cdc.gov/ncezid/dpei/pdf/guidance-elc-reopening-schools-508.pdf.

Assessments, Accountability, and Analytics

Request to Waive Accountability Reporting for 2020-2021

- The Louisiana Department of Education (LDOE) is seeking public comment on the state's proposed 2020-2021 school year accountability waiver from the Every Student Succeeds Act (ESSA).
 - Due to the disruptions caused by COVID-19, the United States Department of Education is allowing states flexibility to pause federal accountability for the 2020-2021 academic year. Consequently, LDOE is seeking a waiver because of the catastrophic interruptions to traditional education methods and strategies that have harmfully impacted academic outcomes and achievement, as evidenced by the spring 2021 results from the Louisiana Education Assessment Program (LEAP 2025).
 - As part of the waiver request, LDOE proposes to freeze the current ESSA designations assigned to struggling schools in 2019 for the 2020-2021 school year. For example, systems with schools that are currently identified as "Comprehensive Intervention Required" or "Urgent Intervention Required or Needed" would continue with these designations from the prior year. Furthermore, there would be no additional "Comprehensive Intervention Required" or "Urgent Intervention Required or Needed" labels assigned to schools in 2021-2022 based on the results from the 2020-2021 school year.
 - At this time, 46 states (including the District of Columbia) have received a waiver for accountability from the United States Department of Education.
- The deadline for public comment is September 14, 2021.
- Please send any comments to accountability@la.gov.
- For questions about the waiver, please contact jennifer.baird@la.gov.

KEA and K-3 Literacy Screening

- For school systems that have had closures due to the aftermath of Hurricane Ida, closed days do not have to be included in the first 30 day count. The department will work with affected school systems to determine if the reporting date of October 15 will need to be adjusted.
- KEA and K-3 screening in the fall will remain the same as in the prior year. The options are below.
 - KEA administration: DRDP-K or GOLD-KEA
 - K-3 literacy: Acadience Reading, DIBELS 8th, STEP, and STEEP
