

CHARTER SCHOOLS

April 8, 2020

Superintendent's Message

Dear Colleagues,

Louisiana Gov. John Bel Edwards last week extended the state's stay-at-home order, and with it the closure of school facilities, until at least April 30.

As we continue to navigate these unprecedented and uncertain times, the Louisiana Department of Education stands committed to supporting school system leaders to make decisions based on the unique needs of their communities.

In line with that commitment, the Department has:

- Continued to secure regulatory flexibilities from the state and federal levels, with [the latest request](#) for an extension of key federal education funding sent to the U.S. Department of Education on April 6;
- Maintained twice-weekly meetings with school system leaders and publicly posted meeting materials to [the COVID-19 page on its website](#), along with other key resources and updated information;
- Equipped school systems with [information and resources to help them start or continue to make academic and workforce decisions](#), including a toolkit of sample distance education models and schedules, instructional materials, and guidance related to staffing needs;
- Released [guidance related to continuous education specifically for students with disabilities](#), including information about remotely providing direct student services, like occupational therapy or counseling, and instructions on how to ensure compliance with special education timelines and requirements; and
- Detailed [next steps for the Class of 2020](#) regarding course credits, assessments, graduation ceremonies and the like.

In order to continue to serve you to the best of our ability, we need to better understand your unique needs for support now and in the coming months. With that, we ask that you please complete a brief survey no later than Tuesday, April 14.

The survey, which focuses on technology, academics, and teacher professional development, [can be found here](#).

Thank you for all you do for our children-now and always.

In service,

Beth Scioneaux
Acting State Superintendent

In addition to the health concerns and significant disruption to businesses currently being experienced, there is an increase in phishing and malware campaigns exploiting the COVID-19 pandemic, which the state's Emergency Support Function-17 (ESF-17) is monitoring. The Cybersecurity and Infrastructure Security Agency (CISA), ESF-17, and the Department encourage school systems to guard against COVID-19-related phishing attacks and disinformation campaigns by taking precautions detailed in the [COVID-19 | ESF-17 Cyber Risk Management Bulletin](#).

Please report any cyber incident related to COVID-19-themed emails, attachments, or scams to the Louisiana FUSION Center at lafusion.center@la.gov.

High School Pathways

Reminder: 2020 Jump Start Summer Institute Digital Training Model

In light of ongoing COVID-19 health concerns and at the direction of local and national authorities, the 2020 Super Summit Institute will not occur in June and July via a face-to-face model, as scheduled. This was a difficult decision and one that was not taken lightly, but the health and safety of educators, presenters, staff, and the community as a whole are paramount. The Department urges everyone to follow the guidelines and protocols put forth by public health officials.

In lieu of face-to-face training opportunities, trainings are being transitioned to a digital training model. The dynamic [2020 Jump Start Super Summer Institute Digital Training Opportunities](#) guide provides a list of professional development and training opportunities. This list is not comprehensive and will continue to be updated as additional training options are confirmed.

[A list of FAQs](#) regarding Jump Start Super Summer Institute is available in the [All Things Jump Start](#) web portal.

Safe and Healthy Schools

Reminder: School-based Medicaid Reimbursement for Telehealth Services

The Department has been in contact with the Louisiana Department of Health (LDH)-Medicaid regarding the use of telemedicine to provide services to Medicaid eligible students in accordance with their current IEP and was informed by LDH that the Centers for Medicare and Medicaid (CMS) allows for flexibility for telehealth services and LDH is posting guidance to the providers periodically [to their website](#).

This guidance is mostly directed to the Managed Care Organizations (MCOs) but provides information for school systems related to billing for telemedicine. While a secure HIPAA-compliant platform is preferred, providers may use other communication (audio/visual cellular phones) during the COVID-19 emergency.

LDH-Medicaid stated the following changes are necessary when submitting claims for Medicaid reimbursement:

- Place of Service = Code 02
- For behavioral health services provided by an LMHP, school systems must bill the procedure code (CPT) with modifier "95."

School systems must adhere to the [LA Medicaid EPSDT Health and IDEA - Related Services fee schedule dated January 2, 2017](#).

Reminder: In accordance with CMS requirements, school systems may only claim reimbursement for behavioral health services provided by Licensed Mental Health Professionals (LMHPs) as defined by CMS - LCSWs, LPCs, LMFTs, and/or Licensed Psychologists. CMS does not recognize Licensed Specialist School Psychologists as an LMHP.
