

CHARTER SCHOOLS

September 2, 2020

Dear Colleagues,

The best way to start this week's message is with prayers for everyone impacted by Hurricane Laura. Most of us know someone whose life was changed by the storm. We've been in touch with leaders from many of the systems in Laura's path and will continue to serve and guide them throughout the rebuilding process. The road to recovery will be long. We must be there to support our fellow Louisianans. I've been impressed with everyone's continued resiliency against all odds.

While much of our state recovers from Hurricane Laura, we're still in a global pandemic. Our openings have gone very well as you have followed our safety protocols. Systems will soon receive information from the Louisiana Department of Health on an early warning system for COVID-19 cases. This system will require an extra time commitment, but it is a benefit for our schools and for public health officials. It will streamline much of the information you are already sharing with your health officials, and create a process for gathering additional details when positive cases occur. It's important we collaborate with the medical community. This system will allow them to provide you with an efficient and thorough response to potential COVID-19 related concerns in your schools. Data drives the decisions we make as educators, and the same applies true here as well.

Hang in there — we will get through this.

Dr. Cade Brumley
State Superintendent of Education

2019-2020 P-EBT Benefits

Louisiana is reopening the Pandemic Electronic Benefit Transfer (P-EBT) program for families who did not apply in May and June. This includes all students attending a Community Eligibility Provision (CEP) school.

Without the requested information, the Department of Children and Family Services cannot issue the Electronic Benefit Transfer (EBT) card and provide benefits.

The [application portal will be open](#) from September 8 at 8 a.m. to September 29 at 5 p.m. A link to P-EBT information and the application portal is available on the [Department's COVID-19 webpage](#). Learning Environment and Connectivity Tool for Systems

The Department has developed a tool for systems and schools to easily track student learning environments as well as device and connectivity data. This tool will also help the Department and systems identify where additional student connectivity supports are needed. System leaders will receive an email from LDOE this week with system specific access information needed to complete a brief survey.

School systems are encouraged to add current data as soon as possible. This will help ensure access to the system well before initial data is pulled for BESE on September 18.

Data submitted to this survey will automatically populate dashboards for systems, charter schools and non-public schools. Links to these dashboards will be added to the “School Reopening Resources” section of the [Strong Start](#) page on August 31. LDOE will pull data on **September 18 at 5 p.m.** to create an initial report for BESE and other stakeholders. Systems should update their dashboard throughout the school year as new information becomes available. The most current data will appear on the dashboard as soon as it is submitted through the survey.
