

# CHARTER SCHOOLS

October 2, 2019

## Superintendent's Message

Dear Colleagues,

It was great to see so many of you at last week's meetings. We covered important ground, including shifts in supports available to alternatively certified teachers, plans for further strengthening of school system cyber security plans, and the Board of Regents' plans for increasing education and credential levels of Louisianans. In each case, our discussion marked one stage of an ongoing dialogue, one that I will revisit in this newsletter and that I hope we will revisit in future meetings.

This morning's Baton Rouge Advocate contained an article that was exceptional for both the detail of the reporting and the efforts of the educators whose story it told. The [article](#) tells the story of two alternative schools, one in Tangipahoa Parish and one in East Baton Rouge Parish, that have reinvented themselves in the last year as part of a pilot initiative launched in partnership with the state Department of Education. The pilot corresponds with the development of [a new rating system](#) for alternative schools, also developed in recent years, set to be public this fall for the first time.

The thoughtfulness and depth of the changes reported are remarkable and moving. "At Tangipahoa Alternative School," the article reads, "the result has been small group meetings similar to counseling groups where kids are free to speak their mind about problems they're facing, they have one-on-one mentors to follow them through their time in alternative programs and afterward, and there's a distinctive focus on social and emotional learning to stop disruptive feelings before they become disruptive behaviors." The story details similarly reflective practices in East Baton Rouge, where principal Rochelle Washington Scott said, "One of the things we often say when parents come for intake is, at the end of the day, the punishment was that your child was expelled, but it's not our job to punish them every day." There are lines that should not be crossed, but students who cross them deserve a path back to the right side of the line. These schools and their staff are exemplars of that approach.

Neither overhaul happened without the involvement of school system leaders. In both cases, school systems made careful and courageous decisions about school leadership and teacher selection. The article also details efforts by both school systems to use federal funds in continuing work with the Discipline Project, a partner organization on the project. These alternative schools are school system-wide priorities, starting at the top.

Kudos to these school systems and their leaders. They are showing what is possible, for students whose possibilities are too often limited.

As always, thank you for all you do for our children,

John

Please contact [collegereadiness@la.gov](mailto:collegereadiness@la.gov) with questions.

### **New: Critical AP Classroom Action**

**Please share with administrators and AP coordinators.**

In order to gain access to the new Advanced Placement instructional resources, there are three steps schools must complete: activate the Advanced Placement registering and ordering system (APRO), create AP sections, and provide students with join codes to individual classroom sections.

At present, according to the College Board, Louisiana schools are on track with two of those three tasks:

- 89 percent have activated the APRO (registration and ordering) system and signed an AP participation form;
- 82 percent have created AP sections; and
- 48 percent of teachers have provided students with join codes to join individual classes, unlocking the new AP resources (Unit exams, Item Bank, Progress Dashboards, etc.).

To better support schools in completing these steps, the Department will host six recurring [Advanced Placement Activation Webinars](#) throughout the month of October that are designed to walk participants through the process of completing the AP Classroom activation process. Each webinar will last approximately twenty minutes with time for Q&A. Each webinar will be the same, so there is no need to attend each one unless participants have additional questions.

Please contact [collegereadiness@la.gov](mailto:collegereadiness@la.gov) with questions.

### **Reminder: Louisiana Extension Academy Request for Applications**

**Please share with administrators.**

On September 26, the Department released a request for applications for **2020-2021 Extension Academies**. The purpose of this innovation is to provide students, who are on track to graduate but not on track to participate in a low-cost postsecondary college or training program, with an additional year to attain a Regents-recognized associate degree, participate in a registered pre-apprenticeship, or attain an advanced Industry Based Credential (IBC).

An informational webinar will be held on **October 7 at 3:00 p.m.** to answer any questions about the RFA. Webinar details are listed below:

The Department conducted its review of student files to verify eligibility for alternate assessment participation for the 2018-2019 school year. Determination letters **were issued to school systems on September 20**. Letters were emailed to special education directors and school system superintendents. Assessment scores for students found to be ineligible will be converted to the lowest scale score and assigned zero points in the school performance score, for the applicable content areas.
