Louisiana School Finder

Louisiana School Finder

ESSA provides Louisiana with an opportunity to collaborate with educators, parents, business leader, and community leaders to create and report on an improved K-12 education system that provides all students with equal access and opportunity to high-quality learning.

In order to provide families with information on school progress towards improving student performance and opportunities, the Department released the Louisiana School Finder on November 7 in conjunction with the release of the 2016-2017 school performance scores.

While this year's results will only report on the indices from the previous accountability system, the School Finder will include the student growth and interest and opportunities indices in subsequent years.

Louisiana School Finder Data Collection

School information included in the Louisiana School Finder is pulled from data reported by districts to the Department or from verified school accountability results.

Additionally, principal names and course offerings will be updated in January following Fall 2017 PEP, CUR, and SIS reporting.

Please reference the [Louisiana School Finder Data Guide](#) for additional information on data sources. Contact systemsupport@la.gov with any questions.

Communicating School Performance and Improvement

The Department encourages all schools to hold parent nights in order to have open and honest conversations with families about school performance and improvements.

- In conversations with families over the past year about the development of the new report cards and Louisiana School Finder, many parents told us that they want to hear from their principal about how the school is doing.
- They accept that their school may not be an A or B as long as school leadership has a clear plan for improvement, and that the school has been improving overall for the past few years.

The release of the 2016-2017 school report cards is an opportunity for schools to be proactive in addressing their school's strengths and areas of opportunity with families, and to build partnerships that will result in increased student achievement.

School Report Card Resources

The Department has released the following resources to support schools and early childhood centers in having conversations with families about the new Louisiana School Finder and report cards.

- **Animated school performance score videos:** that will explain each metric in the Louisiana School Finder related to [K-12 school](#) and [Early Childhood](#) performance, available in Spanish, Vietnamese and Arabic on the [Department's YouTube channel](#)
- **Parent Night Presentation ([K-12](#) and [ECE](#)):** customizable presentations for principals and center directors to use in parent nights that will highlight school/center successes, explain the purpose of new Louisiana School Finder system and the data included in it, and how families can support learning at home.
- **[School Finder Promotional Flyer](#):** one-page document directing families to the Louisiana School Finder and how to find information on their school/center

All resources can be found in the [Principal Support Toolbox](#) and on the [School and Center Performance](#).

School System Planning

The [2018-2019 School System Planning Guide](#) walks school systems through each step of the [School Redesign application](#) process, which will double as school systems' plan for their struggling schools.

The School Redesign application asks school systems to:

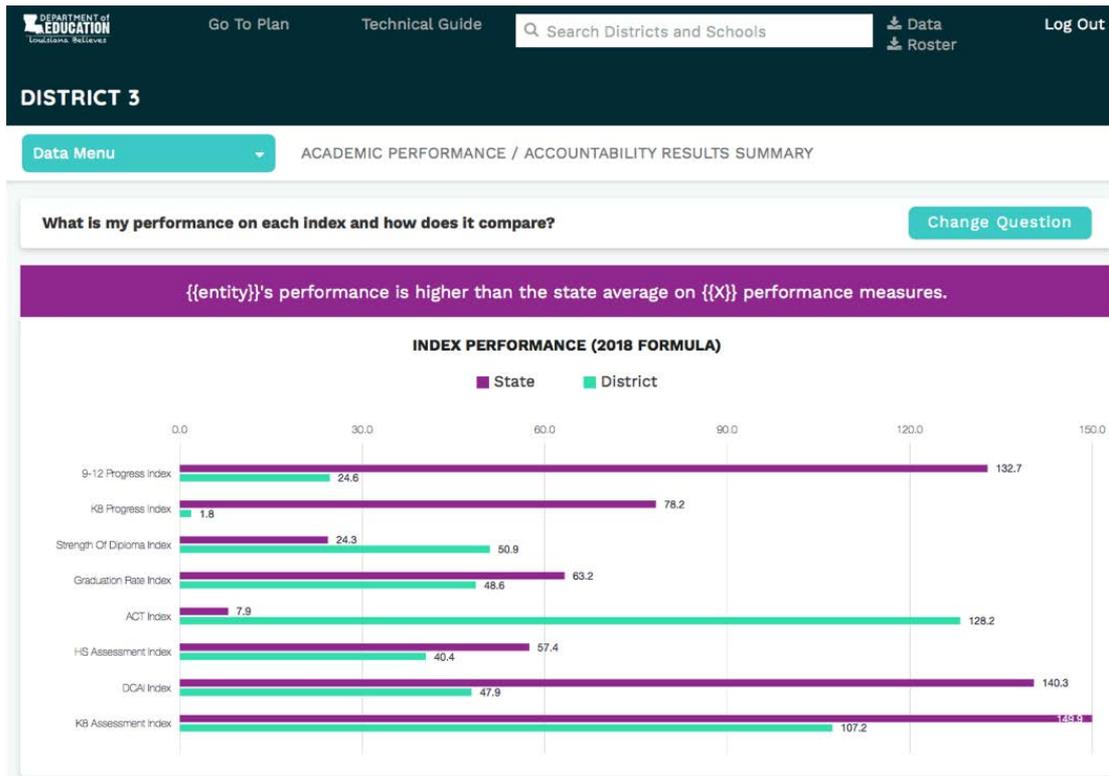

1. Conduct a needs assessment
2. Build a plan to addresses their biggest needs
3. Align their budget to fund prioritized projects and initiatives ([budget template](#))

- The principal and superintendent reporting system includes unsuppressed and legally-protected data about school systems, schools, students, and teachers. Therefore, the reporting system is accessible only by secure login.
- **Principals have access to the reporting system using their CVR system credentials. To confirm access, please view the [login quick access guide](#) or contact your school system CVR data manager.**

Data Available:

- **Schools will have the opportunity to view and explore their preliminary simulated results under the new 2018 accountability formula in the reporting system this month.**
- The website includes a number of features to guide users through the data:
 - Data from across content areas (ECE, K-12, postsecondary, workforce) accessible in a single portal
 - Key questions to guide navigation, planning, and decision-making
 - Visualizations and insight statements to help interpret complex data
 - Exportable charts and data files
 - Connections to the school redesign rubric to support needs assessments and district planning

Urgent Intervention Required for Discipline Update

In response to feedback from the field and in keeping with [national suspension rates](#), the Department has issued revised definitions for identifying schools as Urgent Intervention Required for discipline:

- **Elementary schools (grades PK-4):** reported an out-of-school suspension rate above 5.2% for three consecutive years (2014-2015, 2015-2016, and 2016-2017)
- **Middle and high schools (grades 5-12):** reported an out-of-school suspension rate above 20.2% for three consecutive years (2014-2015, 2015-2016, and 2016-2017)
- **Elementary/middle schools and combination schools (grades PK-12):** reported an out-of-school suspension rate for grades PK-4 above 5.2% for three consecutive years (2014-2015, 2015-2016, and 2016-2017) and/or reported an out-of-school suspension rate for grades 5-12 above 20.2% for three consecutive years (2014-2015, 2015-2016, and 2016-2017)

The [2018-2019 School System Planning Guide](#) has been updated to reflect this change, and updated intervention labels will be provided in the [principal and superintendent reporting system](#) in December. Annual out-of-school suspension rates by school and school system can be found in the [LDE Data Center](#) under Safe and Healthy School Data Reports.

2016-2017 SCHOOL PERFORMANCE SCORE

90.2

The school performance score summarizes how well a school is preparing all of its students for the next level of study. For elementary schools, this score is based on students' mastery of key content for their grade level, and their successful transition into 9th grade for schools with 8th grade students. For high schools, this score also measures graduation rates and how well schools are preparing students for college and a career. Schools that are K-2 configurations have accountability data based on a paired school, designated by its district.
