Louisiana Charter Application
for the 2020 Application Cycle

John White
State Superintendent of Education

Approved by BESE: December 11, 2019
Everything You Need to Know to Complete a Louisiana Charter Application

Application Eligibility

• Any organization or individual may become eligible to submit a Louisiana charter application by meeting specific eligibility requirements.

• The Department has published on its website a set of common eligibility requirements that all applicants must complete. Local school boards may elect to impose additional eligibility requirements.

• Local school boards must publish any additional eligibility requirements to their websites no later than Friday, January 10, 2020.

To which board(s) should I submit my application?

• Local school boards and the state Board of Elementary and Secondary Education (BESE) all have the authority to approve charter schools. To submit an application to BESE, applicants must fall into one of the specific categories of eligibility listed in Bulletin 126 Chapter 5: Application and Approval Process for BESE- Authorized Charter Schools.

• Applicants may submit charter applications to one authorizer or to multiple authorizers. Applicants may submit the same application to multiple authorizers or may craft a distinct application to submit to each authorizer. All documents required as part of an application to BESE are required for applications to local school boards. The Department has compiled a comprehensive set of resources that highlight differences between the relationships that charter schools have with each type of authorizer. These resources can be found in the Department’s online Toolbox.

Are there any special considerations I should be aware of as I complete my application?

There are several special considerations that may or may not apply to applicant groups:

• Applicants may submit a proposal for a growth plan to open multiple schools. Local school boards and BESE both have the authority to grant an applicant approval to open all or some of the schools in their growth plan. There are specific, clearly identified application questions that pertain to applicants who submit a proposal to open multiple schools.

• Applicants may submit a proposal to open a charter school with a specialized focus. A charter school with a specialized focus is a school with a particular mission and vision, such as a performance arts school or language immersion school, which provides students a school model that may not be traditionally available.

• Applicants may submit a proposal to open a charter school in partnership with a corporate partner. Corporate partners must commit to make a significant donation to the school. If a local school board or BESE authorizes the plan, the charter organization will be able to reserve up to 50% of seats in the charter school for permanent employees of the corporate partner. The Department’s website has a more thorough overview of corporate partnerships here.
Applicants may submit a proposal for a virtual charter school. A virtual charter school (sometimes called an online charter school) serves students primarily through online instruction as opposed to in-person instruction. There are additional questions in the common charter application that are required only for virtual charter school applicants.

Applicants may submit a proposal for an alternative charter school. Alternative schools address student behavior, dropout prevention, dropout recovery, and/or credit recovery through alternative educational placements; serve students self-selecting due to extenuating personal circumstances; and do not exist only for students who are academically advanced, gifted, talented, or pursuing specific areas of study (arts, engineering, medical, technical, etc.). Alternative education schools must be approved by BESE in order to be considered an alternative school. For details on the timeline and process for BESE approval as an alternative school, please review the “Alternative Designation” tab of the new operator or experienced Louisiana operator overview template.

**Which set of questions should I complete?**

- There are two sets of questions – one set for new operators in Louisiana and another set for experienced Louisiana operators.
- If your non-profit does not currently operate a charter school in Louisiana, please answer the new operator questions and use the new operator overview template.
- If your non-profit currently operates one or more charter schools in Louisiana, please answer the experienced Louisiana operator questions and use the experienced Louisiana operator overview template.
- If you plan to use an Educational Service Provider (ESP), please make sure to answer the questions in the “Educational Service Provider” section of the application.
- Organizations that have questions about which application or questions they should complete should email Charters@LA.gov.
- Local school boards may elect to ask additional questions above and beyond the questions included in the common charter application. Additional questions must be published to an authorizer’s website no later than Friday, January 10, 2020.

**Do I need to identify a school leader?**

- New operators and experienced Louisiana operators that have not yet operated two schools for at least three years each must identify a school leader in their application for all schools proposed to open in the fall of 2021.

---

1 An Educational Service Provider (ESP) is any third-party entity, whether non-profit or for-profit, that provides comprehensive education management services to a school via contract with the school’s governing board.
When is the application due? What other dates do I need to know?

- The common application that all applicants must complete will be released by BESE on December 13, 2019, and is due on March 6, 2020. Local school boards can request additional information from applicants if they post that information to their websites no later than January 10, 2020.

- Local school boards must consider applications that they receive on or before June 12, 2020. Local school board applicants may elect to appeal to BESE if a local school board rejects their proposal, does not consider it on or before June 12, 2020, or authorizes an applicant to open a school but imposes conditions that the applicant finds unacceptable.

- The table below summarizes key application process dates. After an applicant submits an application to a local school board or BESE, the relevant authorizer will provide a more detailed timeline pertaining to that particular process.

**How do I submit my proposal?**

- Local school boards and BESE utilize their own submission systems.
- No later than Friday, January 10, 2020 local school boards must post on their websites the instructions for submitting a charter proposal.
- To submit a charter proposal to BESE, please email Charters@LA.gov for instructions on submitting a charter proposal.

**What resources are available to help me develop a proposal?**

- The Department has compiled a comprehensive set of resources in an online Toolbox that you can find on the Department’s website. The Toolbox is designed to help you determine whether you should apply for a charter school and which needs your charter school can meet.

**How will my proposal be evaluated?**

- Local school boards and BESE will provide for an independent review of all charter applications they receive. The rubric used by the independent evaluators hired by BESE to evaluate Type 2, 4, and 5 charter school applications can be found [here](#).
- Local school boards and BESE may choose to include multiple components in their charter application process. For example, authorizers may choose to request a second submission or an interview. Local school boards must post a description of the review process to their websites no later than January 10, 2020.
- All applicants will have the opportunity to write a response to a draft recommendation from the independent reviewer and to speak at a public meeting prior to an authorizer’s consideration of their application.
- Authorizers are not required to agree with the recommendation submitted by the independent reviewer that they hire. For applications submitted to the Board of Elementary and Secondary Education, for example, the state superintendent exercises discretion in making recommendations to BESE.

**Who should I contact with questions?**

- No later than Friday, January 10, 2020, local school boards must post to their websites the contact information for a primary contact for charter school application questions.
- Andrew Shachat is the primary charter application process contact for the Louisiana Department of Education. He can be reached via email at Charters@LA.gov.
