

**A. Description of overall philosophy (200 word limit):**

New Beginnings Schools believes all students have the right to learn, live and achieve in the least restrictive environment. Every student possesses unique gifts and talents which are cultivated through the assistance offered by the services of special educators. All children have the potential to be life-long learners no matter what their exceptionality. All possess differing abilities to assist them in their personal journey through the educational process. Special Education assist these unique students in receiving equal access to a free and appropriate education. This may require specialized instruction, tests or instructional accommodations or Speech, OT, PT and APE from related service providers.

Special Education staff at New Beginnings Schools collaborate and work closely with parents, regular education staff, and support staff to develop appropriate programs for students requiring special services. The ultimate goal for our students is to improve students' ability to advocate for themselves and learn skills necessary for post-secondary education and employment. We as educators strive to provide equal access for academic growth and pride in our schools and community. To the fullest extent possible we at New Beginnings Schools educate our students to develop their full potential.

Response to Intervention Overview	<p>NBSF academic staff ensure that all instructional lessons are aligned to Common Core State Standards. The Response to Intervention (RTI) process is a three-tiered approach to providing services and interventions to struggling learners and/or students with challenging behaviors at increasing levels of intensity. Interventions in NBSF is based on the Universal Screening data.</p> <p>Universal screenings (STAR Reading and STAR Math, Achieve 3000 and DIBELS assessments) are used to screen students into appropriate instructional tiers.</p> <p>The RTI process is designed to help staff utilize data to make decisions to improve the educational outcomes for all students, especially those students whose success is at risk due to academic or behavioral challenges. The student is provided with appropriate scientific research-based instruction, including interventions, (i.e. Study Island and Accelerated Reading and Math) in the general education setting, delivered by qualified personnel. Although academic interventions may be provided for reading and mathematics, Positive Behavior Supports (PBS) address behavioral issues. The universal screening instrument Student Risk Screening Scale, (SRSS; Drummond 1994) identifies students with externalizing and internalizing behavior difficulties. Functional Behavior Assessments (FBAs) and Behavior Intervention Plans (BIPs) are required after the first suspension for <b>all</b> students whose behavior is suspected of significantly interfering with that student’s learning. Interventions include “Check In, Check Out, Positive Peer Reporting, Response Cost Raffle and the Good Behavior Game”.</p>
School Building Level Committee (SBLC)	<p>The School Building Level Committee (SBLC) is a general education, data driven, decision-making committee whose standing members consist of at least the principal/designee, a classroom teacher and the referring teacher. In discussing an individual student’s difficulties, the student’s parent or guardian is an invited participant. The SBLC shall review and analyze all screening data, including RTI results, to determine the most beneficial option for the student.</p> <p>Example engagements with parents include invitation and notification to all meetings in which decisions are being made regarding their child. More specifically parents are invited to SBLC meetings when decisions are made</p>
