Louisiana students are smart and capable. While Louisiana is seeing positive growth as a result of its ongoing efforts to support schools and school systems—from an increase in the percentage of proficient early childhood centers serving at-risk children, to an increase in students scoring mastery in third grade, and graduation and credential rates reaching an all-time high—there is still work that needs to be done.

To ensure every student is able to achieve their potential, Louisiana educators must ensure that, every day, all students work with educators that treat them with dignity and respect, where they have the opportunity to:

- **build** knowledge of the world,
- **read** meaningful texts,
- **express** ideas through writing and speaking, and
- **solve** complex problems.

Louisiana’s **academic plan** for the 2020-2021 school year ensures that teachers have the support they need to be fully prepared to deliver high-quality instruction for every student every day. This includes:

- Principals, leadership teams, Content Leaders, and Mentor Teachers using observations, common planning time, and coaching to support teachers in delivering high-quality lessons
- School systems creating supportive structures to facilitate teacher preparation and student learning
- The Department providing tools and resources to support school systems in executing their academic plans

The **Educator Resource Guide** serves as a centralized tool to provide teachers, schools, and school system leaders with the resources to ensure a **strong start** to the 2020-2021 school year within five priority areas:

- **UNIFIED EARLY CHILDHOOD SYSTEM**
- **ACADEMIC ALIGNMENT**
- **TEACHER AND LEADER PREPARATION**
- **PATHWAYS TO COLLEGE OR A CAREER**
- **TARGETED SUPPORT FOR STRUGGLING SCHOOLS**
