

# Eureka Remediation Tools

To become mathematically proficient, students **must** access on-grade-level content. The Eureka Remediation Tools aim to help teachers who use the Eureka curriculum to target remediation for students needing extra support before and **while** approaching on-grade-level work, creating opportunities for on-time remediation directly connected to the new learning.

Eureka Remediation Tools include:

1. a diagnostic assessment to help teachers determine the misunderstandings or gaps in mathematical knowledge related to a specific Topic in the Eureka curriculum
2. guidance for teachers to analyze student work on the diagnostic assessment
3. suggested materials for targeted remedial instruction

Note: The use of the remediation guidance is not intended to delay students' engagement with on-grade-level learning. On-grade-level learning should be the focus of instructional time and be treated as an opportunity for students to "finish" learning previous skills and deepen conceptual understanding.

The following chart details the Topics with which the remediation tools will be aligned. The tools will be released on a rolling basis through the fall of 2017. The ✓denotes the tools that have been released to date.

4 <sup>th</sup> Grade		5 <sup>th</sup> Grade		6 <sup>th</sup> Grade		7 <sup>th</sup> Grade		8 <sup>th</sup> Grade		Algebra I
